and secure your financial future Do you want to ensure that inflation does not eat away at everything that you have worked so hard for Do you want to own wealth outside of the paper financial system If your answer to these three questions is yes then you need to own real money Not rands dollars or euros these are merely fiat currencies You want to own gold and silver as without them your wealth is only worth the value of the ink and the paper on which it is printed For thousands of years holders of gold and silver have discovered that both metals are monetary antidotes against global financial chaos caused by debt fiscal imprudence and ad infinitum money printing The proprietor of even a few ounces of gold is not only an investor but an individual with the assurance that their wealth and purchasing power remains preserved Going for Gold is not an attempt to coerce investors into allocating a portion of their total investment portfolio to precious metals Rather it speaks directly to the South African investor and declutters and contextualises the vast amounts of information available about precious metals providing counsel that the mainstream financial industry has disregarded at best and suppressed at worst

Building Wealth with Silver Thomas Herold, 2011-03 We are all using dangerous outdated old economic strategies to protect and grow our money in the so called new economy Most of us don't even know it Every economy is in some sense new However applying the rules from an older economy to a newer one during times of transition is a recipe for financial ruin Economic transitions have been around for centuries the difference is that now they are worldwide in scope and affect everything rather than local in nature with limited affects While you sleep at night while you go to work each day something insidious is actually stealing your financial future It isn't anyone's fault really There is a massive reallocation of wealth as we transition into the new economy There are two sides to this story Because of the changing rules of money the greatest transfer of wealth in the nation and the world is now unfolding Money is about to flow away from the financially uninformed and flow towards the financially well informed in the years ahead This is nothing new really Money has always worked this way The good news is that average members of the public now have more ways than ever before to understand this process and to take appropriate action I am sure you are aware of the rising price of gold that's been going on for almost 10 years now Most recently gold started climbing with even greater speed History repeats itself again and again Whenever governments start to dilute their money investors transfer their money into gold Gold has intrinsic value and will always prevail in any economy What most non investors and investors including yourself probably you don't realize is that although gold is a great way to preserve your wealth it's silver that could actually make you rich The price of gold has already risen dramatically but silver is just beginning its climb Nine Reasons Why Silver is a Unique Wealth Building Instrument Silver like gold has intrinsic value Silver has been in a commodity bull cycle since 2000 Silver is a safe hedge against currency inflation Silver is a security choice during times of financial crisis Silver is rarer than gold Silver is used in 90% of all electronics and its mostly non renewable Silver inventories are very low Silver leasing the scam will be exposed soon Silver investment markets are expanding thanks to the Chinese What You Will Learn From Building Wealth with Silver You will discover why the

Federal Reserve was created and why you and I have been kept in the dark about its true purpose You will find out why the U S dollar is quietly being destroyed without fanfare and the reason this process is being publically denied and covered up You will see why unemployment numbers along with many other economic figures are rigged and how we re are being lied to about their true significance The insights you get from the first few chapters alone can change your life Even if you were to study at Harvard for five years which would cost you by the way over 95 000 you would not have the knowledge you need to get any closer to this kind of insider information Learn why silver is the best investment opportunity right now Get the facts on silver production and consumption and all the details behind silver s projected five to eight fold increase over the next several months

Here's What You Do! Robert D. Beadles,2009-04 We teeter on the edge of an historical economic abyss News stories bring reports of job losses foreclosures and shriveling investments So many can t make ends meet fear losing their jobs and are confounded by our economy s flux The country s frustration is palatable So what do you do If you ve asked this question this book will change how you look at our economy and your livelihood In simple straightforward language author Robert Beadles gives guidance on what to do to secure your financial future Beadles presents a handful of powerful and yes often radical economic ideas His plans though are rooted in a convincing historical context In plain English he explains how to convert your shrinking low interest investments into solid no fail assets gold silver and real estate Set against the larger context of the Fed he explains why and how these vehicles endure inflation and bad economic policies The power of this book is in its brevity Beadle s short answers are backed by viable alternate strategies that you can easily understand Yet his small words have big meanings So if you re confused about what do to buy this book What you do thereafter is entirely up to you
