The Ladder Andrew Marker, 2010-12-14 In *The Ladder* I claim that Plato was right All human beings are born into a kind of cave the darkness of which symbolizes our natural ignorance What we call philosophy is just a determined attempt to escape the cave and break out into the light of day The ladder referred to in the title is the power of human reason which provides the means of reaching that light Has anyone ever succeeded in reaching it I do not know All I know for sure is that I am not on the list of people who have My goal in *The Ladder* is simply to help the reader do some intellectual spelunking I will try to take the reader as many rungs up the ladder as I can Along the way we will discuss the nature of wisdom truth God and morality We will draw on the insights of Socrates Aristotle Hume Darwin and Wittgenstein Readers will no doubt find much in these pages with which to disagree We should

consider this a good thing As noted in the Introduction the books that profit us the most are often the ones we find the least congenial
