The most common hobbies are gardening, stamp collecting, reading books, drawing, watching TV, etc, but my hobby is pretty much different than others. I love playing video games. And I think that is my hobby. When I was in class six, my father bought me a computer and that was my starting in video games.

My favorite game genre is car racing, puzzle, and chess. I think playing chess with a computer makes me really calm and everyone should play this game. I avoid shooting games, these are really addictive and shooting games are not good for health.

play games in my leisure time, I don't waste time playing games. My aim in life is to become a computer engineer and then build my own games. I am working on this daily. I am learning computer in-depth. My passion is to work with the computer always.

The video game has a good side and bad side both. Playing too many video games can ruin your attention power; you won't be able to attentive in your study. That's why I say every one to play in a limit. Personally, I maintain a routine and never play out of routine.

I usually buy new games every month. My elder brother brings a game CD for me. I love video game and this is my favorite hobby. Among other hobbies, I think this is the best one for me.
