

5 ways enterprise software companies can target specific countries for expansion

1

Prioritize nations with large software markets

Focus on prioritizing countries with large software markets as they offer the greatest revenue growth and market share expansion potential.

2

Study target country's business and cultural norms

Research your target country's business and cultural norms to better meet local customers' needs and tailor products and services accordingly.

3

Create a marketing strategy tailored for local buyers

Develop a sound marketing strategy including the local language, culture, customs, and norms so that it resonates with local buyers.

4

Consider partnering with local organizations

Partner with local organizations as they can help you tap into their existing networks and enable you to establish a presence in the new market.

5

Have a solid localization strategy

Translate the user interface, content and documentation into the local language and customize the product or services to meet local preferences.
