Handbook for Teaching Introductory Psychology Michelle Rae Hebl,Charles L. Brewer,Ludy T. Benjamin, Jr.,2001-08-01 Like its predecessors Volume III of the Handbook for Teaching Introductory Psychology provides introductory psychology instructors with teaching ideas and activities that can immediately be put into practice in the classroom It contains an organized collection of articles from Teaching of Psychology TOP the official journal of the Society for the Teaching of Psychology Division 2 of the American Psychological Association Volume III contains 89 articles from TOP that have not been included in other volumes Another distinction between this volume and its predecessors is its emphasis on testing and assessment The book is divided into two sections Section One Issues and Approaches in Teaching Introductory Psychology contains 52 articles on critical issues such as how to approach the course understanding students interests perceptions and motives students existing knowledge of psychology including their misconceptions a comparison of introductory textbooks and tips on how to evaluate them test questions and student factors affecting exam performance an overview of different forms of feedback giving extra credit and how to deal with academic dishonesty Section Two consists of 37 articles that present demonstrations class and laboratory projects and other techniques to enhance teaching and learning in both the introductory as well as advanced courses in the discipline This section is organized so as to parallel the order of topics found in most introductory psychology textbooks Intended for academicians who teach the introductory psychology course and or oversee grad assistants who teach the course all royalties of the book go directly to the Society for the Teaching of Psychology to promote its activities to further improve the teaching of psychology **Psychology In Modules** David G. Myers,2009-09-28 This version of the main text breaks down the chapters into shorter modules for more accessibility The smaller chunks allow students to better grasp and explore psychological concepts The modules also allow more flexibility in teaching as cross references to other chapters have been replaced with brief explanations **Psychology, Seventh**

Edition, in Modules David G. Myers,2004-06   New Trends in Medical and Service Robots Aleksandar Rodić,Doina Pisla,Hannes Bleuler,2014-04-08 This volume describes new frontiers in medical and service robotics in the light of recent developments in technology to advance robot design and implementation In particular the work looks at advances in design development and implementation of contemporary surgical rehabilitation and biorobots Surgical robots allow surgeons greater access to areas under operation using more precise and less invasive methods Rehabilitation robots facilitate and support the lives of the infirm elderly people or those with dysfunction of body parts affecting movement These robots are also used for rehabilitation and related procedures such as training and therapy Biorobots are designed to imitate the cognition of humans and animals The need to substitute humans working on delicate tiresome and monotonous tasks or working with potentially health damaging toxic materials requires intelligent high performance service robots with the ability to cooperate advanced communication and sophisticated perception and cognitive capabilities Progress in this field is fast and results need to be disseminated to stimulate both practical applications and further research Thus these papers are a valuable addition to existing literature   *Psychology, Seventh Edition, in Modules (High School Version)* David G.
