Reznik,2015-12-03 *New Jews* is the first comprehensive study of American Jewish identity in Hollywood movies of the new millennium Despite the argument that we live in a post racial society with supposedly new Jewish characters emerging on the big screen this book details how traditional racial stereotypes of American Jews persist in popular films from the first decade of this century In clear and readable prose the book offers an innovative and penetrating look at dozens of American Jewish meddling matriarchs neurotic nebbishes pampered princesses and scheming scumbags from 21st century film whether Hollywood blockbusters like *Meet the Fockers* and *Sex and the City* or indie favorites like *Garden State* and *Kissing Jessica Stein* Throughout the book famous American Jewish characters played by the likes of Jim Carrey Tom Cruise Anne Hathaway Kate Hudson Scarlett Johansson Sarah Jessica Parker Adam Sandler and Ben Stiller are discussed with the ultimate conclusion that movies today are marked less by the emergence of new Jews than by the continued but dynamic and transformed presence of the same old stereotypes The Modern Guide to Judaism Shmuley Boteach,2012-11-22 Does it

This book examines how the thinking towards international relations of political leaders researchers the media and the public is fundamentally metaphorical in nature the abstract and far away constantly made concrete and familiar through the imaginative rationality of metaphors It delves into ten competing structural metaphors international relations as natural selection as family dynamics as balancing operations as building and constructing as games and play as business and trade as journeys and paths as musical performances as health or sickness and as puzzles and riddles Drawing attention to the important role of metaphors in grasping this field and providing explanations for its events and motives for its actors this study will appeal to scholars and students of International Relations and World Politics For experts on metaphor theory or cognitive linguistics this book will offer practical examples and speculate on the concrete consequences of adopting different metaphorical schemes **Allied Encounters** Marisa Escobar, 2019-07-02 Honorable Mention for the 2019 American

Association for Italian American Book Prize 2021st Centuries Allied Encounters uniquely explores Anglo American and Italian literary cinematic and military representations of World War II Italy in order to trace critique and move beyond the gendered paradigm of redemption that has conditioned understandings of the Allied Italian encounter The arrival of the Allies global forces in an Italy torn by civil war brought together populations that had long mythologized one another yet liberation did not prove to be the happy ending touted by official rhetoric Instead of a honeymoon the Allied Italian encounter in cities such as Naples and Rome appeared to be a lurid affair where the black market reigned supreme and prostitution was the norm Informed by the historical context as well as by their respective traditions these texts become more than mirrors of the encounter or generic allegories Instead they are sites in which to explore repressed traumas that inform how the occupation unfolded and is remembered including the Holocaust the American Civil War and European colonialism as well as individual traumatic events like the massacre of the Fosse Ardeatine and the mass civilian rape near Rome by colonial soldiers Men & Masculinities Michael S. Does God Make the Man? Stewart M. Hoover, Curtis D. Coats, 2015-10-02 Many believe that religion plays a positive role in men's identity development with religion promoting good behavior and morality In contrast we often assume that the media is a negative influence for men teaching them to be rough and violent and to ignore their emotions In *Does God Make the Man* Stewart M Hoover and Curtis D Coats draw on extensive interviews and participant observation with both Evangelical and non Evangelical men including Catholics as well as Protestants to argue that neither of these assumptions is correct Dismissing the easy notion that media encourages toxic masculinity and religion is always a positive influence Hoover and Coats argue that not only are the linkages between religion media and masculinity not as strong and substantive as has been assumed but the ways in which these relations actually play out may contradict received views Over the course of this fascinating book they examine crises contradictions and contestations crises about the meaning of masculinity and about the lack of direction men experience from their faith communities contradictions between men's religious lives and media lives and contestations among men's ideas about what it means to be a man The book counters common discussions about a crisis of masculinity showing that actual men do not see the world the way the crisis talk has portrayed it and interestingly even Evangelical men often do not see religion as part of
