The screenshot shows the FCAT Explorer Science Mission interface. At the top, there's a header with "FCATEXPLORER" and "SCIENCE MISSION". Below this, a question is presented: "Read the question and type your response. In order for molecules to react with each other in a chemical reaction, they must come into contact. Look at Figure 1. It shows a container filled with hydrogen gas (H_2) and oxygen gas (O_2). Hydrogen and oxygen react to form water. What will happen to the rate of this reaction if the volume of the container is reduced to half its size (as in Figure 2)? Why will this happen?"

Below the question, there is a large text box for the student's response, with the prompt "Click here and type your answer." above it. To the right of the text box, there are two diagrams labeled Figure 1 and Figure 2. Figure 1 shows a container with a high volume of gas molecules (red and blue spheres). Figure 2 shows the same container with a lower volume, where the gas molecules are more concentrated. A legend indicates that red spheres represent hydrogen gas (H_2) and blue spheres represent oxygen gas (O_2).
