Water-supply Paper, 1949 **Becoming Abolitionists** Derecka Purnell, 2021-10-05 A NONAME BOOK CLUB PICK

Named a Kirkus Reviews Best Book of 2021 *Becoming Abolitionists* is ultimately about the importance of asking questions and our ability to create answers And in the end Purnell makes it clear that abolition is a labor of love one that we can accomplish together if only we decide to Nia Evans Boston Review For more than a century activists in the United States have tried to reform the police From community policing initiatives to increasing diversity none of it has stopped the police from killing about three people a day Millions of people continue to protest police violence because these solutions do not match the problem the police cannot be reformed In *Becoming Abolitionists* Purnell draws from her experiences as a lawyer writer and organizer initially skeptical about police abolition She saw too much sexual violence and buried too many friends to consider getting rid of police in her hometown of St Louis let alone the nation But the police were a placebo Calling them felt like something and something feels like everything when the other option seems like nothing Purnell details how multi racial social movements rooted in rebellion risk taking and revolutionary love pushed her and a generation of activists toward abolition The book travels across geography and time and offers lessons that activists have learned from Ferguson to South Africa from Reconstruction to contemporary protests against police shootings Here Purnell argues that police can not be reformed and invites readers to envision new systems that work to address the root causes of violence *Becoming Abolitionists* shows that abolition is not solely about getting rid of police but a commitment to create and support different answers to the problem of harm in society and most excitingly an opportunity to reduce and eliminate harm in the first place Geological

Survey Water-supply Paper Geological Survey (U.S.), 1970 **Suffer the Children** Gary Scott Smith, Jane Marie

Smith, 2017-01-31 We all say that we care about children We all know that millions of children around the world including in the United States are suffering physically materially and emotionally and are unable to reach their full potential Moreover their material deprivation and physical ills often prevent them from responding to the gospel Most of us conclude that we cannot do anything significant to help the impoverished children living in our own backyards let alone those living in the slums of Nairobi or the hinterlands of Haiti We can however do much to improve their lives materially and spiritually Through praying giving generously sponsoring children volunteering with aid organizations living more simply investing and shopping more prudently and advocating more zealously in the political arena we can make a difference We can prod politicians business executives and church leaders to prioritize aiding destitute children We can support one of the hundreds of organizations that are working effectively to help indigent children have better lives *Suffer the Children* describes the plight of poor children and provides many practical ways we can participate in one of the most important crusades to improve our world Free Lunch Thinking Tom Bergin, 2021-01-28 Countries with smaller governments grow faster Tobacco taxes are the best way to cut smoking Government regulation discourages entrepreneurship Award winning

Poison Ivy Evan Mandery, 2025-03-18 Hailed as a staggering portrait of inequality in America Philip Dray Poison Ivy tells the bigger seedier story of how elite colleges create paths to admission available only to the wealthy despite rhetoric to the contrary In a lively and trenchant Washington Monthly account Evan Mandery a Harvard graduate and current professor at a public college that serves low and middle income students reveals how tacit agreements between exclusive Ivy plus schools and white affluent suburbs create widespread de facto segregation And as a college degree continues to be the surest route to upward mobility the inequality bred in our broken higher education system is now a principal driver of skyrocketing income inequality Mandery contrasts the lip service paid to opportunity by so many elite colleges and universities with schools that actually walk the walk Now in an accessible paperback format Poison Ivy is a no holds barred takedown Forbes that synthesizes fascinating insider information on everything from how students are evaluated unfair tax breaks and questionable fundraising practices to suburban rituals testing tutoring tuition schemes and more This bold provocative indictment of America's elite colleges shows us exactly what's at stake and what will be possible if we muster the collective will to transform it
