Serving the Customer Thomas Aichner,2023-01-01 This book examines key aspects of selling and the sale of goods and services in B2C and B2B Renowned scholars and practitioners

contributed their expertise with a wide range of articles about how to serve customers and the role of selling and sales. Their research results and practical experiences can be used as a basis for further research as well as implemented by small, medium-sized and globally operating companies. The 13 chapters are organized in four parts starting with I value creation and selling services followed by II business negotiations and sales in B2B, III using technology and innovation to increase sales and study consumers and finishing with two chapters about sales competencies on the one hand and a critical piece about consumption on the other hand under IV selling more or consuming less. The European perspective adopted in the book provides both international researchers and entrepreneurs as well as those already working in Europe with a better understanding of the market and the dynamics in the consumer and business sectors.

Excerpt from the content: The meaning of value creation and value in use in selling services. The vital role of pricing, customer participation and the responsibilities of front-line employees. How to negotiate the sale in B2B and purchase of three distinct types of business services. How, why and under which circumstances retailers are considering machine learning forecasting methods to increase sales. Proposal for an autonomous consumer business which is about fully automating transactions between a seller and a buyer. How the Net Promoter Score works and why it can be both beneficial but also viewed skeptically. Which specific competencies sales professionals must possess to succeed and sell well. The downsides and threats of our economic system with a single-minded focus on the growth of sales or revenues.

Subject Guide to Books in Print, 1997 *Managerial Accounting: Asia-Pacific Edition* John Sands, Lanita Winata, Sophia Su, Maryanne Mowen, Don Hansen, Dan L. Heitger, 2018-10-01

Managerial Accounting is characterised by a strong pedagogical framework and a dynamic and practical approach that directly demonstrates how students can develop their careers in real life. The text introduces students to the underlying concepts and applications of management accounting tools based on the traditional allocation approach and absorption costing method and uses Staircase exercises in each chapter to build knowledge and help learners to link the content between chapters as they progress through the book. This title uses easy-to-understand, student-friendly language, uncomplicated examples, a logical discussion of concepts that matches student learning processes and clear visual explanations that support student understanding.

Financial Accounting for Management: An Analytical Perspective Ambrish Gupta, 2011

Financial Accounting for Management: An Analytical Perspective focuses on the analysis and interpretation of financial information for strategic decision making to enable students and managers to formulate business strategies for revenue enhancement, cost economies, efficiency improvements, restructuring of operations and further expansion or diversification for creating and enhancing the shareholder's value. MBA, MFC and MBE students are its primary audience, but its practical orientation will also be useful to corporate sector managers and CA, CWA, CS, CFA and CAIIB students.
