Serving as an excellent reference guide that develops a pattern of internal auditing now and for the future, this book explores the concept of cutting edge internal auditing as an imaginative adventure demonstrating how this has influenced and will continue to influence the development of professionalism in internal auditing. Built on the foundations of Jeffrey Ridley's extensive internal auditing experience across the public and private sectors, the author uses his articles and research to explore and develop the motivations, goals and categories of innovation in internal auditing today. It develops and brings up to date an imaginative internal auditing model created and used by the author in the early 1980s, drawing on research and guidance by The Institute of Internal Auditors Inc, its Research Foundation and the Institute of Internal Auditors UK and Ireland.
