Landy, Keith R. Burrige, 1999. Grade level 1/2/3. *Five Types of Learning* Carole Bogue PhD, 2018-03-26. The late Dr Donald E. Carline taught at the University of Colorado Boulder, where he imparted timeless wisdom unto his students, focusing on K-12 education. He emphasized five types of learning: sensory experience, learning, memory, motor learning, problem-solving, critical thinking, and social/emotional learning. In *Five Types of Learning*, one of Carline's former students, Carole Bogue PhD, presents the philosophy and thinking behind each type of learning, drawing on Carline's material and lectures that he delivered in a wonderful storytelling manner. Bogue also reviews the recent literature in the five areas of learning and how to facilitate them. She finds significant support for Carline's viewpoints and suggests effective strategies conducive to student learning in light of recent research. In addition to 'Timeless Wisdom' sections in which she presents Carline's description of each type of learning, she includes application exercises drawn from her mentors' material. Throughout the book, readers will find thought-provoking questions and discussion items designed to generate deliberation about the types of learning. Whether you're a college instructor, aspiring teacher, practicing teacher, school administrator, or parent, you'll find guidance to help students succeed in this book. **Understanding Your Child's Mind** Norman W. Jackson, 2009. Is your child having a great amount of trouble in school? Does your bright child have trouble reading?

You have tried everything you can think of and the teacher says your child just cannot get it. If parents suspect a problem they often do not have access to a professional or cannot afford analysis and treatment. Dr Jackson wrote *Understand Your Child's Mind* so parents and children can profit from many of the same techniques used by professionals for visual motor perceptual training and rehabilitation which could cost a small fortune for the price of this book. *Understand Your Child's Mind* provides easy to understand explanations of learning disabilities and difficulties, accurate assessment tools, effective tools and strategies to play to your child's strengths and overcome learning disabilities or challenges. There is absolutely no excuse why thousands of children start school with preventable learning disabilities when parents simply and easily can train them at home. This assessment and treatment does not have to be done in clinics, doctor offices or in preschool programs. The best way to treat a problem is to prevent it before it occurs.

**Primary PE: Unlocking the Potential** Anne Williams, Joanne Cliffe, 2011-05-16. This book aims to address some of the aspects of primary physical education about which there is currently a dearth of high quality texts. It arises from several contextual elements that create a need for something a little different from books currently on offer. Most of these offer guidance on content and teaching skills across the activities of the National Curriculum together with supplementary information about key issues and processes for example assessing pupils or including those with special needs. This proposal focuses on learning about primary PE and its potential to contribute not only as a discrete curriculum subject but also across the whole curriculum and to some of the many strategies and initiatives that have been set up to enhance primary practice and achievement. Topics have been selected as the focus for the chapters in this book not only for their current significance within strategies and initiatives but for their potential to contribute to the enhancement of the curriculum in the longer term and particularly in the context of the recommendations of the Rose review and the imminent revisions to the primary national curriculum.

**Foundations of Education: Instructional strategies for teaching children and youths with visual impairments** M. Cay Holbrook, Alan J. Koenig, 2000. *The Redleaf Family Child Care Curriculum* Sharon Woodward, 2015-06-08. This leading resource is a specifically designed curriculum for family child care providers. They will be able to incorporate best practices and activities appropriate for the mixed ages of children in their care. Developmental domains and milestones, learning areas, age appropriate activities and outcomes and more are included. It is far more affordable than other family child care curriculum alternatives and it aligns with Quality Rating and Improvement System (QRIS) requirements around the country. Sharon Woodward is the author of several resources for family child care providers and holds a degree in social work.
