Smith Blue Camille T. Dungy, 2011-05-18 In *Smith Blue* Camille T. Dungy offers a survival guide for the modern heart as she takes on twenty-first century questions of love, loss, and nature. From a myriad of lenses, these poems examine the human capability for perseverance in the wake of heartbreak, the loss of beloved heroes and landscapes, and our determination in the face of everyday struggles. Dungy explores the dual nature of our presence on the planet, juxtaposing the devastation caused by human habitation with our own vulnerability to the capricious whims of our environment. In doing so, she reveals with fury and tenderness the countless ways in which we both create and are victims of catastrophe. This searing collection delves into the most intimate transformations wrought by our ever-shifting personal, cultural, and physical terrains, each fraught with both disillusionment and hope. In the end, Dungy demonstrates how we are all intertwined, regardless of race or species, living and loving as best we are able in the shadows of both man-made and natural follies. *Flight* It is the day after the leaves when buckeyes like a thousand thousand pendulums, clock trees, and squirrels fat in their winter fur chuckle, hours chortle, days. It is the time for the parting of our ways. You slid into the summer of my sleeping, crept into my lonely hours, ate the music of my dreams. You filled yourself with the treated sweet I offered, then shut your rolling eyes and stole my sleep. Came morning and me awake. Came morning. Awake, I walked twelve miles to the six-gun shop. On the way there, I saw a bird of prayer all furled up by the river. I called to it. It would not unfold. On the way home, I killed it. It is the time of the waking cold when buckeyes like a thousand thousand metronomes tock time and you fat on my summer sleep titter toward me, walk away. It is the time for the parting of our days. **Scribner's Magazine** Edward Livermore, Burlingame, Robert Bridges, Alfred Sheppard

Dashiell, Harlan Logan, 1901 Calculus I with Integrated Precalculus Laura Taalman, 2013-01-14 Taalman's *Calculus I with Integrated Precalculus* helps students with weak mathematical backgrounds be successful in the calculus sequence without retaking a precalculus course. Taalman's innovative text is the only book to interweave calculus with precalculus and algebra in a manner suitable for math and science majors, not a rehashing or just-in-time review of precalculus and algebra, but rather a new approach that uses a calculus-level toolbox to examine the structure and behavior of algebraic and transcendental functions. This book was written specifically to tie in with the material covered in Taalman-Kohn *Calculus*. Students who begin their calculus sequence with *Calculus I with Integrated Precalculus* can easily continue on to *Calculus II* using the Taalman-Kohn text.
