

Which service schedule is right for you?

Ford recommends that individual drivers' servicing schedules differ, and therefore the extent of servicing that you require depends upon your usage of your vehicle. For example, if you tend to frequent long distances and drive a relatively high number of miles in a year, your servicing requirements will not be the same as if your journeys were mostly around town. Perhaps thinking in a relatively low mileage at the end of the year, your private thinking will help you decide what type of driver you are.

The following questions will help you decide what type of driver you are and thus what sort of servicing is correct for your vehicle.

'NORMAL USAGE' SERVICING

Do you drive less than 20,000 miles a year?

If you regularly service your vehicle in one or more of the following circumstances:

- the short type of less than ten miles, particularly during winter
- when outside temperatures are low
- for journeys mostly in stop-start urban traffic
- with extensive idling, such as a taxi or door-to-door delivery service

If so, your vehicle requires 'Normal Usage' servicing which is indicated in the following pages by the shaded areas.

If most of your driving is in any of these circumstances you are advised also to have the engine oil and filter changed more frequently than the intervals stated in the service schedules.

An oil and filter change alone can be completed quickly by your Ford Dealer, often on a while-you-wait basis.

'HIGH MILEAGE' SERVICING

Do you drive more than 20,000 miles a year, and/or most of your journeys are open roads or motorways?

If so, your vehicle can have 'High Mileage' servicing which is indicated in the following pages by the black areas.

If you are in any doubt about the servicing needs of your vehicle—and the services available to you—talk to your Ford Dealer. He has the knowledge and expertise to advise you.
