Ghostly Justice A Novella:

Creon's Ghost Law Justice and the Humanities Tomain, 2009-02-16 Creon's Ghost examines the enduring problem of the relationship between man's law and a higher law from the perspective of core humanities texts and through discussion of hotly debated contemporary legal conundrums Today such issues as intelligent design in school curricula same sex marriage and faith based government grants are all examples of the interaction between man's law and some other set of moral principles As these debates are considered in this book the author uses texts such as Antigone and Plato's Republic and pairs them with the most important jurisprudence texts of the 20th century to explore different approaches to the contemporary conflict or court ruling under consideration Creon's Ghost demonstrates that the humanities can both illuminate our understanding of contemporary problems and that classic texts can be read alongside jurisprudential texts thus enriching our understanding of and appreciation for law

The Soul of Justice Cynthia Willett, 2018-05-31 Cynthia Willett brings together diverse insights from social psychology classical and contemporary literature and legal and justice theory to redefine the basis of the moral and legal person Feminists communitarians and postmodern thinkers have made clear that classical liberalism with its emphasis on individual autonomy and excessive rationalism is severely limited Although she is sympathetic with the liberal view Willett finds it necessary to go further For her attention to the social dimensions of the family and civil society is critical if issues of race gender class and sexuality are to be taken seriously Interdependency not autonomy is of increasing significance in an era of globalization Willett proposes an alternate normative theory that recognizes the impact of social forces on individual well being Citizenship in a democracy should not be defined solely on the basis of rights to autonomy such as bare rights to property or free speech she explains Rather citizenship should be defined

first of all in terms of the rights responsibilities and capacities of the social person It is within the African American tradition of political thought that Willett finds a more useful definition of human identity and political freedom The African American experience offers a compelling vision of social change and a deeper understanding of what it means to be a social person By focusing on everyday battles against racism Willett contends we can gain valuable insight into the meaning of justice

Indigenous Cities Laura M. Furlan,2017-11 In *Indigenous Cities* Laura M Furlan demonstrates that stories of the urban experience are essential to an understanding of modern Indigeneity She situates Native identity among theories of diaspora cosmopolitanism and transnationalism by examining urban narratives such as those written by Sherman Alexie Janet Campbell Hale Louise Erdrich and Susan Power along with the work of filmmakers and artists In these stories Native peoples navigate new surroundings find and reformulate community and maintain and redefine Indian identity in the postrelocation era These narratives illuminate the changing relationship between urban Indigenous peoples and their tribal nations and territories and the ways in which new cosmopolitan bonds both reshape and are interpreted by tribal identities Though the majority of American Indigenous populations do not reside on reservations these spaces regularly define discussions and literature about Native citizenship and identity Meanwhile conversations about the shift to urban settings often focus on elements of dispossession subjectivity and assimilation Furlan takes a critical look at Indigenous fiction from the last three decades to present a new way of looking at urban experiences one that explains mobility and relocation as a form of resistance In these stories Indian bodies are not bound by state imposed borders or confined to Indian Country as it is traditionally conceived Furlan demonstrates that cities have always been Indian land and Indigenous peoples have always been cosmopolitan and urban

The Fourth Ghost Robert H. Brinkmeyer,2009 In the 1949 classic *Killers of the Dream* Lillian Smith described three racial ghosts haunting the mind of the white South the black woman with whom the white man often had sexual relations the rejected child from a mixed race coupling and the black mammy whom the white southern child first loves but then must reject In this groundbreaking work Robert H Brinkmeyer Jr extends Smith s work by adding a fourth ghost lurking in the psyche of the white South the specter of European Fascism He explores how southern writers of the 1930s and 1940s responded to Fascism and most tellingly to the suggestion that the racial politics of Nazi Germany had a special problematic relevance to the South and its segregated social system As Brinkmeyer shows nearly all white southern writers in these decades felt impelled to deal with this specter and with the implications for southern identity of the issues raised by Nazism and Fascism Their responses varied widely ranging from repression and denial to the repulsion of self recognition With penetrating insight Brinkmeyer examines the work of writers who contemplated the connection between the authoritarianism and racial politics of Nazi Germany and southern culture He shows how white southern writers both those writing cultural criticism and those writing imaginative literature turned to Fascist Europe for images analogies and metaphors for representing and understanding the conflict between traditional and modern cultures that they were witnessing in Dixie Brinkmeyer considers the works of a wide range of authors of varying political stripes the Nashville Agrarians W J Cash

Lillian Smith William Alexander Percy Thomas Wolfe William Faulkner Katherine Anne Porter Carson McCullers Robert Penn Warren and Lillian Hellman He argues persuasively that by engaging in their works the vital contemporary debates about totalitarianism and democracy these writers reconfigured their understanding not only of the South but also of themselves as southerners and of the nature and significance of their art The magnum opus of a distinguished scholar The Fourth Ghost offers a stunning reassessment of the cultural and political orientation of southern literature by examining a major and heretofore unexplored influence on its development Food Justice and Narrative Ethics Beth A. Dixon, 2018-09-06 Beth A Dixon explores how food justice impacts on human lives Stories and reports in national media feature on the one hand hunger famine and food scarcity and on the other rising rates of morbid obesity and health issues Other stories food justice narratives illustrate how to correct the ethical damage created by the first type of story They detail the nature of oppression and structural injustice and show how these conditions constrain choices truncate moral agency and limit opportunities to live well With stories from national media food and farming memoirs and scholarly ethnographies Dixon reveals how different food narratives are constructed and enable identification of just solutions to issues surrounding food insecurity farm labor and the lived experience of obesity Drawing on Aristotle's concept of ethical perception Dixon demonstrates how we can use narratives to enhance our understanding and ethical competence about injustice in relation to food Food Justice and Narrative Ethics is a must read for students of food studies philosophy and media studies **Abolition Time** Jess A.
