Gifted Hands Study Guide Answers Key:

Gifted?: The shift to enrichment, challenge and equity Morgan Whitfield, 2024-07-19 Gifted and talented is a zombie. It is dead but still walking around. There are new labels to stratify students: more able, significantly able, high aptitude learners. New labels do not equal new thinking. The concept of gifted is still stubbornly embedded in our educational structures with its legacy of social immobility, racism, and sexism. Students can be more able when they have more financial resources, more access, more visibility, or more cultural acceptance. There are pervasive narratives that educators should prioritise extension for some students and not others. We can dispel the myth that pitching lessons judiciously to middle ability and then differentiating up and down is effective. This book explores how we can provide every student with rigorous challenge. Challenge for all is an inclusive approach to teaching whereby every student is invited and given the tools to reach a place of mastery. This can be through project-based learning, Harkness round tables, oracy, adaptive teaching, inclusive enrichment programs, dynamic classroom strategies, and a schoolwide mission for equity. Educators can embed powerful knowledge into the curriculum, reimagine teaching to the top, and stretch learners through personalised and responsive instruction. The shift to enrichment, challenge, and equity creates magnificent possibilities. The message to all students is: you belong here.
