Library of Congress Subject Headings Library of Congress. Cataloging Policy and Support Office,2006 *Library of Congress Subject Headings* ,2009 **California Travel Quests** Richard Di Giacomo,2025-05-01 This is so much more than just an average travel book that only covers the major tourist attractions This book is designed to help you slow down and enjoy the rich diversity of California There are many interesting places to see and things to do in the vast state that are not listed in conventional travel guides There are many off the beaten path and unconventional places that are still well worth visiting To make it fun I have arranged the attractions by themes I call them travel quests Think of them as bucket lists for travelers Instead of trying to see all of California in one big gulp the state s many fascinating sites have been broken up into a series of travel goals along a similar theme You may complete these quests on multiple trips at your leisure or combine items from different quests Each section of the book has a travel quest to complete based upon a particular theme like nature history entertainment or cultural sites The chapter then has goals for a representative sample of the items contained on that list Some additional silly activities such as wearing a costume getting a goofy souvenir or singing an appropriate song have been included to keep it fun for children and others The author s personal favorites for each category are also highlighted along with many great photos from his travels The book is a treasure trove of insider travel tips from a long term resident of the state who has traveled the length and breadth of the state many times It contains many fascinating historical and geographical facts that put the places and activities in context It is very educational and fun for the whole family It can also save you a lot of time and money by telling you what is worth seeing and what is not It tells you how to avoid the crowds and wasting time traveling and waiting in lines This is the full color edition The stunning photographs show what a marvelous place California is to see *Garlic Capital of the World* Pauline Adema,2010-02-17 According to Pauline Adema you smell Gilroy California before you see it In *Garlic Capital of the World* the folklorist and culinary anthropologist examines the role of food and festivals in creating a place brand or marketable identity The author scrutinizes how Gilroy California

successfully transformed a negative association with the pungent bulb into a highly successful tourism and marketing campaign This book explores how local initiatives led to an iconization of the humble product in Gilroy The city a well established agricultural center and bedroom community south of San Francisco rapidly built a place brand identity based on its now famous moniker Garlic Capital of the World To understand Gilroy s success in transforming a local crop into a tourist draw Adema contrasts the development of this now thriving festival with events surrounding the launch and demise of the PigFest in Coppell Texas Indeed the Garlic Festival is so successful that the event is all that many people know about Gilroy Adema explores the creation and subsequent selling of foodscapes or food themed place identities This seemingly ubiquitous practice is readily visible across the country at festivals celebrating edibles like tomatoes peaches spinach and even cauliflower Food Adema contends is an attractive focus for image makers charged with community building and place differentiation Not only is it good to eat food can be a palatable and marketable symbol for a town or region Sunset ,1913
