Guided Reading And Study Workbook Chapter 14 The Human Genome:

Ethics in Pharmacy Practice: A Practical Guide Dennis M. Sullivan, Douglas C. Anderson, Justin W. Cole, 2021-06-16

This textbook offers a unique and accessible approach to ethical decision making for practicing pharmacists and student pharmacists Unlike other texts it gives clear guidance based on the fundamental principles of moral philosophy explaining them in simple language and illustrating them with abundant clinical examples and case studies The strength of this text is in its emphasis on normative ethics and critical thinking and that there is truly a best answer in the vast majority of cases no matter how complex The authors place high trust in a pharmacist's moral judgment This teaches the reader how to think based on ethical principles not necessarily what to think This means navigating between the two extremes of overly theoretical and excessively prescriptive The cogent framework given in this text uses the language of competing duties identifying the moral principles at stake that create duties for the pharmacist This is the balancing act of normative ethics and of deciding which duties should prevail in a given clinical situation This work presents a clear cut pathway for resolving ethical dilemmas encountered by pharmacists based on foundational principles and critical thinking Presents a clear cut pathway for resolving the ethical dilemmas encountered by pharmacists based on foundational principles and critical thinking Jon E Sprague RPh PhD Director of Science and Research for the Ohio Attorney General

A Companion to the Etruscans Sinclair Bell, Alexandra A. Carpino, 2016-02-23 This new collection presents a rich selection of innovative scholarship on the Etruscans a vibrant independent people whose distinct civilization flourished in central Italy for most of the first millennium BCE and whose artistic social and cultural traditions helped shape the ancient Mediterranean European and Classical worlds Includes contributions from an international cast of both established and emerging scholars Offers fresh perspectives on Etruscan art and culture including analysis of the most up to date research and archaeological discoveries Reassesses and evaluates traditional topics like architecture wall painting ceramics and sculpture as well as new ones such as textile archaeology while also addressing themes that have yet to be thoroughly investigated in the scholarship such as the obesus etruscus the function and use of jewelry at different life stages Greek and Roman topoi about the Etruscans the Etruscans reception of ponderation and more Counters the claim that the Etruscans were culturally inferior to the Greeks and Romans by emphasizing fields where the Etruscans were either technological or artistic pioneers and by reframing similarities in style and iconography as examples of Etruscan agency and reception rather than as a deficit of local creativity
