**How to Enhance Learning Efficiency When Online Learning is Popular and Indispensable: Theory, Research and Practice** Rong Lian, Chang Liu, Juzhe Xi, 2024-07-17 Online learning has become more and more common globally whether for comfort adapting to work hours or just having the freedom to study from anywhere And now under the coronavirus pandemic as people are having to stay at home it has become more important than ever Although the popularity of wireless network and portable smart device makes it possible for people to acquire and learn knowledge anytime and anywhere it does not necessarily mean an increased learning performance Relevant research in cognitive science has revealed possible limitations in online learning For example the knowledge acquired through online learning tends to be fragmented and lacks guidance for integrated thinking among different subjects which makes it difficult for learners to form

a systematic knowledge structure Learners may experience cognitive overload metacognitive illusion and low learning efficiency in self regulated learning It follows that in the post COVID 19 era online learning puts forward new requirements and challenges to the contemporary students not only to their learning strategies but positive character traits in learning Most of the current learning theories were developed in the early 20th century and may not fit in well with the current situation then possibly leading to inefficient learning and increased learning burden Therefore it is necessary and important to reexplore the influencing factors and mechanisms that affect the learning efficiency of students at all levels nowadays based on which we could construct a theoretical model of efficient learning model      **Looking Out/looking in** Ronald Brian Adler,Neil Towne,1987 This popular text motivates students to improve their interpersonal skills and sharpen their critical understanding of the process of communication Through thoughtful diverse examples that include fine art music poetry film and more students can consistently see the importance of interpersonal communication and how it affects their society and their lives      *Teaching Literature* Deborah Elkins,1976      **The Coevolution Quarterly** ,1977      **Books in Print** ,1977      Catalog of Copyright Entries.
