Matusow,1998 Historian Allen J Matusow now presents the first comprehensive history of Nixon's political economy He depicts a president who disliked the subject but was forced to pay attention or lose his dream of effecting a historic realignment of the political parties in America The study derives its authority from extensive archival research in Nixon's presidential papers including notes by Haldeman and Ehrlichman of crucial conversations in the Oval Office Matusow shows the poverty of contemporary economic theory Nixon's willingness to sacrifice the world economy for his domestic political purposes and his desperate attempts to find something anything that might work Lurching from one set of policies to another Matusow argues Nixon achieved only illusory successes that ultimately brought on a decade of economic disaster
