Dissimilar Similitudes Caroline Walker Bynum, 2020-09-29 From an acclaimed

historian a mesmerizing account of how medieval European Christians envisioned the paradoxical nature of holy objects Between the twelfth and the sixteenth centuries European Christians used a plethora of objects in worship not only prayer books statues and paintings but also pieces of natural materials such as stones and earth considered to carry holiness dolls representing Jesus and Mary and even bits of consecrated bread and wine thought to be miraculously preserved flesh and blood Theologians and ordinary worshippers alike explained utilized justified and warned against some of these objects which could carry with them both anti Semitic charges and the glorious promise of heaven Their proliferation and the reaction against them form a crucial background to the European wide movements we know today as reformations both Protestant and Catholic In a set of independent but interrelated essays Caroline Bynum considers some examples of such holy things among them beds for the baby Jesus the headdresses of medieval nuns and the footprints of Christ carried home from the Holy Land by pilgrims in patterns cut to their shape or their measurement in lengths of string Building on and going beyond her well received work on the history of materiality Bynum makes two arguments one substantive the other methodological First she demonstrates that the objects themselves communicate a paradox of dissimilar similitude that is that in their very details they both image the glory of heaven and make clear that that heaven is beyond any representation in earthly things Second she uses the theme of likeness and unlikeness to interrogate current practices of comparative history Suggesting that contemporary students of religion art and culture should avoid comparing things that merely look alike she proposes that humanists turn instead to comparing across cultures the disparate and perhaps visually dissimilar objects in which worshippers as well as theorists locate the other that gives religion enduring power
