Creating a resource of guided reading lesson plans Emily F. Green,2006 All elementary schools in the Green Bay Area Public School District are now using the guided reading approach for reading instruction Simply stated guided reading involves teaching students at their instructional level This means that in one classroom alone a teacher may have five different reading groups in which students are all reading different books and focusing on different skills Planning for numerous reading groups can take up the majority if not all of teacher s planning time Due to the fact that planning for guided reading instruction takes so much time teachers don t have time to meet their remaining job requirements within the allotted amount of time and are unable to collaborate effectively with their grade level peers This advocacy project focuses on producing a resource of lesson plans that correspond to the books in Martin Elementary School s book room to minimize the amount of time teachers spend planning guided reading lessons in order to enable them to have more time to complete other job requirements during the work day This project incorporates time for teachers to collaborate in order to produce quality lessons
