Catalogue of the Central Lending Department ... Birmingham Public Libraries. Central Lending Dept, 1906 **The Publishers' Trade List Annual** , 1881 **Schiller: National Poet - Poet of Nations** , 2016-08-09 To mark the 200th anniversary of Schiller's death leading scholars from Germany Canada the UK and the USA have contributed to this volume of commemorative essays These were first presented at a symposium held at the University of Birmingham in June 2005 The essays collected here shed important new light on Schiller's standing as a national and transnational figure both in his own lifetime and in the two hundred years since his death Issues explored include aspects of Schiller's life and work which contributed to the creation of heroic and nationalist myths of the poet during the nineteenth and early twentieth centuries his activities as man of the theatre and publisher in his own pre national context the trans national dimensions of Schiller's poetic and dramatic achievement in their contemporary context and with reference to later appropriations of national elements in his work The contributions to this volume illuminate Schiller's achievements as poet playwright thinker and historian and bring acute insights to bear on both the history of his impact in a variety of contexts and his enduring importance as a point of cultural reference *A Catalogue of Theological Books in Foreign Languages ..* Nutt, firm, booksellers, London, 1857 Catalogue Dartmouth College, 1899 *The Journal of a London Playgoer from 1851-1866* Henry Morley, 1891 Routledge Library Editions: Art and Culture in the Nineteenth Century Various, 2021-03-29 This set of 11 volumes originally published between 1946 and 2001 amalgamates a wide breadth of research on Art and Culture in the Nineteenth Century including studies on photography theatre opera and music This collection of books from some of the leading scholars in the field provides a comprehensive overview of the subject how it has evolved over time and will be of particular interest to students of art and cultural history The Aesthetics of Kinship Heidi Schlipp Hacke, 2023-01-13 The Aesthetics of Kinship intervenes critically into rigidified discourses about the emergence of the nuclear family and the corresponding interior subject in the eighteenth century By focusing on kinship constellations instead of family plots in seminal literary works of the period this book presents an alternative view of the eighteenth century literary social world and its concomitant ideologies Whereas Enlightenment and post Enlightenment philosophy and political theory posit the nuclear family as a microcosm for the ideal modern nation state literature of the period offers a far more heterogeneous image of

kinship structures one that includes members of various classes and is not defined by blood Through a radical re reading of the multifarious kinship structures represented in literature of the long eighteenth century *The Aesthetics of Kinship* questions the inevitability of the dialectic of the Enlightenment and invokes alternative futures for conceptions of social and political life Routledge Library Editions: Historiography Various, 2021-06-23 The greatest problem in historical scholarship theoretically and practically is the relation between historians and their subject matter The past is gone and historians can only study its remnants On what basis do scholars select certain facts from the mass of data left from the past How do they explain the interrelationship of the facts they select What criteria do they use to evaluate their subject The 35 volumes in this set originally published between 1926 and 1990 discuss and answer these essential questions faced by historians The development of historical understanding during the 18th and 19th centuries was one of the most striking features of Western culture Both historiography and historical thinking advanced as never before The historical movement of the 19th century was perhaps second only to the scientific revolution of the seventeenth century in transforming Western thought One consequence was extensive organisation and professionalization of research which the volumes in this set reflect **Printed Opera Scores in American Libraries** , 1998 A multi volume set giving detailed information on every aspect of opera over 100 000 entries Improves on Steiger's *Opernlexikon* by including two additional data categories for each work language of text and literary sources and by covering composers who have appeared since the end date of Steiger's work 1934 **Gerhart Hauptmann and the Naturalist Drama** John Osborne, 1998 What was German Naturalism What were its achievements How does it compare with its counterparts in other European countries These are some of the difficult questions addressed by John Osborne in *Gerhart Hauptmann and the Naturalist Drama* a revised and updated version of his *The Naturalist Drama in Germany* now widely acknowledged as the standard introduction to the subject The debates to which he contributed and in some cases initiated on Naturalism in the German theatre Naturalist theory in Germany and the development of the Naturalist movement to the contemporary Social Democrat movement have remained central issues This revised edition preserves the structure and approach of the original including its emphasis on the early dramas of Hauptmann while taking full account of subsequent scholarship which provides the context in which this Naturalist playwright's work can be placed
