Karaoke Owners Manual:

The Private Music Instruction Manual Rebecca Osborn, 2004 Future and current independent private music educators will find this book an invaluable resource for establishing and maintaining a private music studio. Private music instructors will learn what they should expect professionally, personally, and financially from their independent music instruction business. Until now, no single resource has existed that fully explains how to run this type of business successfully. This book presents all aspects of private music instruction through an easy-to-read, concise, and engaging instructional format. Following the sound advice presented will help to greatly alleviate the problems that all beginning independent instructors face by specifically mapping out chronological steps for establishing and maintaining a private instruction music business. The field of private music education has been inundated by less than professional individuals who have made it difficult for legitimate, qualified instructors. The Private Music Instruction Manual shares years of information and experiences in the hope of legitimizing the field of private music instruction. In a world where there is decreasing priority and structure in public music education, private music instructors become increasingly important to prepare the next generation of musicians. No matter the size of your private music instruction business, the advice presented in The Private Music Instruction Manual will help to improve any private music business. From the Midwest Book Review: With The Private Music Instruction Manual: A Guide For The Independent Music Educator, author Rebecca Osborn draws upon her many years of experience and expertise as an adjunct college music professor and owner of three private music studios to write an informed and informative guidebook specifically for musicians and music instructors who want to teach students in a profitable private practice but are not familiar with or knowledgeable about setting up a music instruction business enterprise. Rebecca Osborne provides a wealth of invaluable, professional, effectively organized, and presented instructions on establishing and maintaining a music teaching business and shows what to expect professionally, personally, and financially from independent music instruction. If you want to make money teaching, other than how to play any kind of music instrument, then you need to give a careful and profitable reading to Rebecca Osborn's The Private Music Instruction Manual.

Karaoke Fascism Monique Skidmore,2012-02-24 To come to Burma one of the few places where despotism still dominates is to take both a physical and an emotional journey and like most Burmese to become caught up in the daily management of fear Based on Monique Skidmore s experiences living in the capital city of Rangoon Karaoke Fascism is the first ethnography of fear in Burma and

provides a sobering look at the psychological strategies employed by the Burmese people in order to survive under a military dictatorship that seeks to invade and dominate every aspect of life Skidmore looks at the psychology and politics of fear under the SLORC and SPDC regimes Encompassing the period of antijunta student street protests her work describes a project of authoritarian modernity where Burmese people are conscripted as army porters and must attend mass rallies chant slogans construct roads and engage in other forms of forced labor In a harrowing portrayal of life deep within an authoritarian state recovering heroin addicts psychiatric patients girl prostitutes and poor and vulnerable women in forcibly relocated townships speak about fear hope and their ongoing resistance to four decades of oppression Karaoke fascism is a term the author uses to describe the layers of conformity that Burmese people present to each other and more important to the military regime This complex veneer rests on resistance collaboration and complicity and describes not only the Burmese form of oppression but also the Burmese response to a life of domination Providing an inside look at the madness and the militarization of the city Skidmore argues that the weight of fear the anxiety of constant vulnerability and the numbing demands of the State upon individuals force Burmese people to cast themselves as automata they deliberately present lifeless hollow bodies for the State s use while their minds reach out into the cosmos for an array of alternate realities Skidmore raises ethical and methodological questions about conducting research on fear when doing so evokes the very emotion in question in both researcher and informant
