configuration that would become BMW's hallmark. Along the way BMW would use that configuration to power groundbreaking machines like the R90S, R100RS and R80GS. The BMW Century details more than one hundred years of BMW from its historic aviation roots to today's trend setting cars and motorcycles. **BMW Z-Cars** James Taylor, 2019. After the many exciting and innovative products in its past by the mid 1980s BMW was perhaps beginning to look a little staid with a reputation largely based on building surefooted and reliable fast saloons sedans for the executive market. The formation of an internal think tank BMW Technik with an ongoing brief to explore all areas of potential product development allowed bold new ideas to surface. The first BMW Technik model to make it to production was the Z1 roadster and this is the reason why today's BMW roadsters carry the letter Z. Here is the full story of all the Z prototypes and concept cars and particularly the production models Z1, Z3, M Roadster and M Coupe and Z8 which have done so much to change the public's concept of the BMW marque. **The BMW 5 Series and X5** Marc Cranswick, 2014-01-10. BMW is a company associated with motoring firsts. The very idea of a sports sedan was merely a novelty until BMW introduced the 5 series in 1972. As BMW's middle child the 5 series has drawn features from the company's smallest and largest models establishing a reputation for performance and practicality through multiple generations. This book covers the history of the 5 series midsize sedan and the related X5 SUV from September 1972 to the e60's major makeover for 2008 and the development of the e70 X5. Specific mechanical, electronic and cosmetic changes are described including the time of and reasons for their introduction. Several aspects of BMW's corporate history and technically related models such as the 6 series are also described as are aftermarket modifications by Alpina, Hartge and other specialist BMW tuners and speed shops. The book includes more than 200 photographs. **Autocar & Motor**, 1990. **Autocar**, 1997.
