**Voice, Meaning** Garry L Hagberg,2025-05-31 There has been a steady stream of articles written on the relations between conceptions of meaning and the interpretation of literature but there remains a need for a book that both introduces and significantly contributes to an elucidation and understanding of the ways that voice and tone contribute to the determination of meaning Only rarely have considerations of voice been brought together with considerations of meaning determination the work of Stanley Cavell covered in one section of this book is a leading example This volume thus offers an analytically acute and culturally rich way of understanding how it is that we can productively think philosophically about meaning in language and literature in a more inclusive expansive and indeed human way Impressionism: A Feminist Reading Norma Broude,2019-08-16 An original interpretation of Impressionism and nineteenth century art and culture by a noted feminist art historian This book is a pioneering reading of Impressionism from a feminist perspective by a noted art historian Norma

Art and Form Sam Rose, 2019-03-25 This important new study reevaluates British art writing and the rise of formalism in the visual arts from 1900 to 1939 Taking Roger Fry as his starting point Sam Rose rethinks how ideas about form influenced modernist culture and the movement's significance to art history today In the context of modernism formalist critics are often thought to be interested in art rather than life a stance exemplified in their support for abstract works that exclude the world outside But through careful attention to early twentieth century connoisseurship aesthetics art education design and art in colonial Nigeria and India Rose builds an expanded account of form based on its engagement with the social world Art and Form thus opens discussions on a range of urgent topics in art writing from its history and the constructions of high and low culture to the idea of global modernism Rose demonstrates the true breadth of formalism and shows how it lends a new richness to thought about art and visual culture in the early to mid twentieth century Accessibly written and analytically sophisticated Art and Form opens exciting new paths of inquiry into the meaning and lasting importance of formalism and its ties to modernism It will be invaluable for scholars and enthusiasts of art history and visual culture John Constable's
