

Describe the relationship between media and politics.

This improves political selection and incentives and eventually, the quality of policy and welfare. The media may introduce some systematic biases, sometimes forcing politicians to work on the wrong issues and perhaps inducing pandering to voters' incorrect beliefs, but the role is primarily positive through improved political accountability.
- ✓ Media matters through propaganda and by exploiting cognitive mistakes that voters make. Key theories are those of media agenda setting, priming, and framing. The fears are that the media can manipulate voters to act against their own interest. For example, describing media framing, Entman (1993, p. 55) writes, "How can even sincere democratic representatives respond correctly to

Media and Politics in a Globalizing World Alexa Robertson, 2015-03-17 Globalization and technological advances have had a dramatic impact on the relationship between media and politics. How can we understand the connection between the two in the present day? Alexa Robertson argues that we cannot understand the power of the one without taking the other into account. This exciting and accessible book provides fresh insight into our contemporary media landscape adopting a truly comparative global approach. In *Media and Politics in a Globalizing World* Robertson encourages the reader to explore the relationship from different perspectives: those of the politician, the journalist, the activist, and the ordinary citizen, and how the relationship between media and politics varies across cultures.
