Friedrich Jacobs,1842      **The Bookseller** ,1917      **The Politics of Translation in the Middle Ages and the Renaissance** Renate Blumenfeld-Kosinski,2001-03-07 The articles in this collection written by medievalists and Renaissance scholars are part of the recent cultural turn in translation studies which approaches translation as an activity that is powerfully affected by its socio political context and the demands of the translating culture The links made between culture politics and translation in these texts highlight the impact of ideological and political forces on cultural transfer in early European thought While the personalities of powerful thinkers and translators such as Erasmus Etienne Dolet Montaigne and Leo Africanus play into these texts historical events and intellectual fashions are equally important moments such as the Hundred Years War whose events were partially recorded in translation by Jean Froissart the Political tussles around the issues of lay readers and rewriters of biblical texts the theological and philosophical shift from scholasticism to Renaissance relativism or European relations with the Muslim world add to the interest of these articles Throughout this volume translation is treated as a form of writing as the production of text and meaning carried out in a certain cultural and political ambiance and for identifiable though not always stated reasons No translation this collection argues is an innocent transparent rendering of the original      **The Players** ,1860      Bookseller and the Stationery Trades' Journal ,1882

**Word from the Mother** Geneva Smitherman,2006-04-18 Written by the hugely respected linguist Geneva Smitherman this book presents a definitive statement on African American English Enriched by her evocative and inimitable prose style the study presents an overview of past debates on the speech of African Americans as well as providing a vision for the future Featuring cartoons which demonstrate the relationship between language and race as well as common perceptions of African American Language she explores its contribution to mainstream American English and includes a summary of expressions as a suggested linguistic core of AAL As global manifestations of Black Language increase she argues that through education we must broaden our conception of AAL and its speakers and further examine the implications of gender age and class on

AAL Perhaps most of all we must appreciate the artistic and linguistic genius of AAL presented in this book through rap and Hip Hop lyrics and the explorations of rhyme and rhetoric in the Black speech community Word from the Mother is an essential read for students of African American English language culture and sociolinguistics as well as the general reader interested in the worldwide crossover of black popular culture     **A Translation of Jacobs Greek Reader** Friedrich Christian Wilhelm Jacobs,1842     **Bluestockings Displayed** Elizabeth Eger,2013-11-21 The first academic and interdisciplinary volume exploring bluestocking portraiture performance and patronage in eighteenth century Britain opening vistas for future scholarship     **Staging England in the Elizabethan History Play** Ralf Hertel,2016-04-01 Applying current political theory on nationhood as well as methods established by recent performance studies this study sheds new light on the role the public theatre played in the rise of English national identity around 1600 It situates selected history plays by Shakespeare and Marlowe in the context of non fictional texts such as historiographies chorographies political treatises or dictionary entries and cultural artefacts such as maps or portraits and thus highlights the circulation and mutation of national thought in late sixteenth century culture At the same time it goes beyond a New Historicist approach by foregrounding the performative surplus of the theatre event that is so essential for the shaping of collective identity How this study crucially asks does the performative art of theatre contribute to the dynamics of the formation of national identity Although theories about the nature of nationalism vary a majority of theorists agree that notions of a shared territory and history as well as questions of religion class and gender play crucial roles in the shaping of national identity These factors inform the structure of this book and each is examined individually In contrast to existing publications this inquiry does not take for granted a pre existing national identity that simply manifested itself in the literary works of the period nor does it proceed from preconceived notions of the playwrights political views Instead it understands the early modern stage as an essentially contested space in which conflicting political positions are played off against each other and it inquires into how the imaginative work of negotiating these stances eventually contributed to a rising national self awareness in the spectators

**The Artist and the Eternal City** Loyd Grossman,2021-08-03 This brilliant vignette of seventeenth century Rome its Baroque architecture and its relationship to the Catholic Church brings to life the friendship between a genius and his patron with an ease of writing that is rare in art history By 1650 the spiritual and political power of the Catholic Church was shattered Thanks to the twin blows of the Protestant Reformation and the Thirty Years War Rome celebrated both as the Eternal City and Caput Mundi the head of the world had lost its preeminent place in Europe Then a new Pope Alexander VII fired with religious zeal political guile and a mania for creating new architecture determined to restore the prestige of his church by making Rome the key destination for Europe s intellectual political and cultural elite To help him do so he enlisted the talents of Gianlorenzo Bernini already celebrated as the most important living artist no mean feat in the age of Rubens Rembrandt and Velazquez     Authority of Expression in Early Modern England Nely Keinänen,Maria Saleniu,2009-03-26

Authority of Expression in Early Modern England brings together an international group of scholars writing on the relationships between authority and the self in early modern English literature discussing writers such as Edmund Spenser William Shakespeare John Donne Ben Jonson Thomas Middleton and Andrew Marvell The early modern period was a time of momentous religious political and cultural change with scientific and geographical exploration opening new horizons challenging established truths and unsettling the concepts and practices of authority In this book scholars approach the texts from a literary historical and or linguistic point of view thus providing multiple perspectives on the topic Themes explored include the links between sense perception and cognition in the establishment of authority the ways that sexuality gender relations and language are implicated in expressing and responding to authority and conceptions of the self and the strategies that individuals adopt to cope with changes in their frameworks of authority and power This wide ranging collection offers new perspectives on how authority was negotiated in the English Renaissance *The Athenaeum* ,1881
