- **Communication activities:** *Student's Book* pages 138 & 140
- **Pairwork.** Put students into A and B pairs and ask them to turn to their respective pages and study the photo.
- They then work with their partner and show each other their photo. They describe the similarities and differences between the two photos and decide what links them.
- Refer students to the *Useful language* box below the exercise to help them.

That people sometimes use animals to work and entertain them.

- **Pairwork.** Students use the categories in the box to discuss with a partner the different ways animals are used by humans.

**Possible answers:**

leisure/entertainment: circuses  
research: testing on animals for medical purposes or to test cosmetics  
security: sniffer dogs to test for drugs or explosives at airports; to protect property  
sport: horseracing; greyhound racing; fox hunting  
work: dogs for the blind and other disabilities;  
workhorses for pull carts; mules and camels to carry people's belongings in some countries

- Pairs join up with another pair to compare their ideas in exercise 2. They then discuss the questions.

## DID YOU KNOW?

- **Pairwork.** Students read the information and discuss the questions.
- You could then ask students to report back briefly on anything interesting they heard in their discussions.

## Web research task

- **Methodology guidelines:** *Web research tasks*, page xiv

**Crafts**

- If you have a class that likes dogs, get them to find out what happened at the most recent Crufts dog show. Ask them these questions:

- 1 Which breed of dog was *Best in Show*?
- 2 Can you find a photo of the winner?
- 3 What were other prizes awarded for?
- 4 If you want your dog to enter next year, what exactly must it do (or you do) to be accepted?

*Aerostats and Airships* Mangala Joshi, 2022-03-28 This book covers material challenges and technology innovation in coated and laminated textiles for aerostats and airships. Aerostats and airships are lighter than air LTA aircraft which are generally used in defence applications and face many harsh environmental conditions. For sustaining such conditions, there are special requirements for the material to be used in aerostats and airships which generally include a multi-layered coated laminated textile using a textile fabric in base layer and different polymers for coating lamination. Therefore, this book covers typical materials developed by different countries, challenges for developing material for aerostat and airship envelope, and the future scope. Features: Exclusive title on materials used for LTA envelopes. Discusses material challenges such as selection of suitable fibre, polymer, additive, coating, lamination techniques, joint type and sealing techniques. Includes typical materials developed by different companies and researchers worldwide. Clearly explains technical concepts using figures, schemes, and tabulated data. Includes case studies on material developed for aerostats and airships by different countries including NASA, Lockheed Martin, JAXA, ADRDE, and DRDO. This book is aimed at graduate students, researchers, and professionals in textiles engineering and aerospace engineering. Developing Natural Curiosity through Project-Based Learning Dayna Laur, Jill Ackers, 2017-02-17 *Developing Natural Curiosity through Project Based Learning* is a practical guide that provides step-by-step instructions for PreK-3 teachers interested in embedding project-based learning (PBL) into their daily classroom routine. The book spells out the five steps teachers can use to create authentic PBL challenges for their learners and illustrates exactly what that looks like in an early childhood classroom. Authentic project-based learning experiences engage children in the mastery of twenty-first century skills and state standards to empower them as learners making an understanding of PBL vital for PreK-3 teachers everywhere.
