HT820
Bluetooth®
Stereo Headphones

USE THE HT820

Before using this product, read the Important Safety and Legal Information pamphlet and follow its instructions.

You can use your HT820 headphones simultaneously with a Bluetooth A2DP enabled audio device and your Bluetooth cell phones!

Listen to music, hear a beep, and transfer to take the call on the headphones. Hang up the call with a push of a button and your music automatically continues playing.

Ready to make it work?

- Charge your Headphones for 2 Hours (CHARGE)
- Pair headphones & audio device (PAIR)
- Pair phone & headphones (back side of this guide)
- Listen to music and take calls!

**The Bluetooth Enabled Audio Device must be A2DP compatible*

① CHARGE Your Headphones' Battery

Before using your HT820 for the first time, charge the headphones for 2 hours:

- 1 Plug the Motorola charger into the headphones. The indicator light turns on when the battery is charging. When the headphones' battery is fully charged, the indicator light turns off.

- 2 Disconnect the charger.

Note: Headphones do not function while charging.

You can also use a Motorola Original™ Vehicle Power Adapter to charge your headphones while in your vehicle.

A fully charged battery provides approximately: 14 hrs of music listening, 17 hrs of talk time, or 500 hrs of standby time.

② PAIR

Before you can use your headphones with a Bluetooth enabled product, you must pair it with that product. To pair:

- 1 Make sure your headphones are turned off (see *Turning On and Off*) and press and hold the left side Call button for 6 seconds until the indicator light turns on and remains steadily lit.

Call Button with Indicator Light (Left Side)

- 2 Next, put your Bluetooth Enabled audio device in pairing mode so the devices can "talk" to each other.

For details about putting Bluetooth Enabled devices in pairing mode, refer to the device's User's Guide for directions.

Note: To pair the headphones with your phone, see "Pair with your Phone," on the reverse side of this guide.
