Naissance De L'intellectuel Catholique:

Naissance de l'intellectuel catholique Hervé Serry, 2012-07-12 Une étude brillante sur la naissance de cette figure oubliée de l'histoire intellectuelle l'crivain et intellectuel catholique Au tournant des années 1910 s'affirme en France un mouvement de renaissance littéraire catholique Nombre d'crivains parmi lesquels Francis Jammes Paul Claudel et François Mauriac s'unissent pour mettre leur œuvre au service de la religion et former ainsi une armée catholique de la plume C'est cette histoire de la naissance et de l'affirmation de l'intellectuel catholique dans la période 1880-1935 qu'Hervé Serry restitue dans ce livre Après avoir vu les racines du mouvement depuis la figure tutélaire de Chateaubriand et du Génie du christianisme il montre comment dans le contexte d'effervescence spirituelle de la fin du siècle des intellectuels la question engage collectivement dans des polémiques sur la place du moralisme en littérature Ces crivains se heurtent la fois au rejet du champ littéraire qui refuse de subordonner l'art à la morale religieuse et aux pressions de la hiérarchie ecclésiastique qui tente de limiter la liberté de création Lorsqu'au début des années 1930 s'oppose le mouvement de renaissance la condamnation de Charles Maurras prononcée par Rome en 1926 entraîne une redéfinition des enjeux et permet l'affirmation d'une parole critique au sein de l'Église Il laisse la place à une figure de l'crivain catholique désormais intégrée dans le monde intellectuel français Hervé Serry propose ici une étude brillante et originale de ces oubliés de la vie intellectuelle et des rapports qu'ils ont entretenus avec l'institution ecclésiastique Ce faisant il analyse les effets du processus de privatisation de la religion sur les intellectuels catholiques la redéfinition des formes et des contenus de leurs engagements politiques et esthétiques jusqu'à la Seconde Guerre mondiale *Les intellectuels catholiques en Belgique francophone aux 19e et 20e siècles* Guy Zelis, 2009-12 Une mise en perspective théorique et historiographique présente la diversité et la multiplicité des travaux menés sur l'histoire intellectuelle sur les intellectuels catholiques et sur leurs liens avec la Belgique francophone **Les Catholiques dans la République, 1905-2005** Bruno Duriez, 2005 Quelle a été la place des catholiques dans la République depuis la séparation des Églises et de l'État en 1905 L'expression de leurs croyances a-t-elle été réduite à la sphère privée Se sont-ils retranchés dans une opposition frontale à l'État Ont-ils investi la société pour faire passer au travers de conflits multiples avec les courants laques socialistes ou libéraux le visage de la République française Quelle part ont-ils prise à la modernisation de notre modèle démocratique Pour la première fois un ouvrage dresse le tableau d'ensemble de l'engagement catholique dans la France du xxe siècle Des paysans aux intellectuels de l'usine l'hôpital de l'intimité familiale l'espace politique ce livre donne au débat sur religion et politique l'paisseur d'un siècle d'histoire Induite par son ampleur rigoureuse par sa méthode et novatrice dans ses interprétations cette synthèse historique rend compte d'un paradoxe comment les catholiques ont-ils pu participer à la construction d'une République dont ils étaient supposés au début du siècle combattre les valeurs et les principes **La mise au pas des écrivains** Jean-Yves Mollier, 2014-01-29 L'abbé Bethléem est un peu connu en histoire littéraire pour avoir publié en 1904 un bréviaire de romans à lire et romans à proscrire futur best-seller qui fit le tour du monde Mais la force de frappe de son

magazine culturel la Revue des Lectures qui parvint s'imposer dans l'entre-deux guerres auprès de la NRF de la Revue des Deux Mondes ou du Mercure de France l'est beaucoup moins. Ce grand intellectuel catholique soutenu par le Saint-Siège fut aussi la bête noire des surréalistes qui refusaient ses oukases. Après sa mort, il inspira la loi du 16 juillet 1949 relative aux publications destinées à la jeunesse qui allait servir empêcher les jeunes auteurs Pauvert, Losfeld ou Tchouvoire, Régine Deforges de publier Sade et les auteurs maintenus dans l'Enfer de la Bibliothèque nationale. Jean-Yves Mollier raconte avec brio l'histoire de l'abbé Bethléem dont la mission fut de mettre au pas les crivains du XXe siècle y compris catholiques pour les contraindre respecter les lois relatives à la diffusion des bonnes mœurs. Pour l'Église catholique qui se sentait menacée dans ses certitudes et ses croyances au moment de l'irruption de l'Encyclopédie de Diderot et d'Alembert, l'heure avait sonné de reconquérir les terres perdues et de traquer le Mal partout où il se cachait. L'abbé Bethléem s'attaqua d'abord au roman puis au théâtre, l'opéra, la bande dessinée, l'annonce publicitaire et enfin au maillot de bain féminin, pourtant encore très loin du sulfureux bikini de l'après-Seconde Guerre mondiale. Fondé sur un important dépouillement d'archives et de journaux du XXe siècle, voici un ouvrage difiant qui montre que la censure toujours présente au XXIe siècle et qui demeure le refuge de tous les extrémismes doit sans doute beaucoup à l'abbé Bethléem et au dévouement de sa forte personnalité à l'Église catholique.

Bourdieu and the Literary Field Jeremy Ahearne, 2020-03-31. No detailed description available for *Bourdieu and the Literary Field*.

Messiaen the Theologian Andrew Shenton, 2017-07-05. For Olivier Messiaen, music was a way of expressing his faith. He considered it his good fortune to have been born a Catholic and declared that the illumination of the theological truths of the Catholic faith is the first aspect of my work, the noblest and no doubt the most useful. Messiaen is one of the most widely performed and recorded composers of the twentieth century and his popularity is increasing, but the theological component of his music has so far largely been neglected or dealt with superficially and continues to provide a serious impediment to understanding and appreciating his music for some of his audience. *Messiaen the Theologian* makes a significant contribution to Messiaen studies by providing cultural and historical context to Messiaen's theology. An international array of Messiaen scholars cover a wide variety of topics including Messiaen's personal spirituality, the context of Catholicism in France in the twentieth century and comparisons between Messiaen and other artists such as Dante and T.S. Eliot. Interdisciplinary methodologies such as exegesis, theological studies and analysis are used to contribute to the understanding of several major works including *Sept Haïka* and *Saint Francis d'Assise*. By approaching Messiaen and his music from such important and original perspectives, this book will be of interest not only to musicians and theologians but also to readers interested in the connection between spirituality and the arts.

Les intellectuels au Québec Jonathan Livernois, 2015-10-01T00:00:00-04:00. Voici une manière assez nouvelle de redécouvrir les débats idéologiques tenus au Québec depuis un siècle et demi. Bien sûr, les auteurs prennent en compte les deux trames fondamentales de la société québécoise : la religion et le nationalisme. Inévitablement, ils s'interrogent sur la figure de l'intellectuel catholique, par exemple, ou sur les

obsacles à l'émergence des intellectuels en général. Mais proposer une brève histoire des intellectuels est leur manière de dire qu'ils ont voulu porter une attention particulière à la forme spécifique d'affirmation intellectuelle des femmes. C'est aussi une manière de rappeler les hommes et les femmes qui ont tenu toutes les époques un discours critique sur la société. Historien Yvan LAMONDE est professeur maître de l'Université McGill. Marie-Andrée BERGERON est professeure de littérature québécoise et féministe à l'Université de Calgary. Michel LACROIX et Jonathan LIVERNOIS sont professeurs de littérature québécoise respectivement à l'Université du Québec Montréal et à l'Université Laval.

Research in the History of Economic Thought and Methodology Luca Fiorito, Scott Scheall, Carlos Eduardo Suprinyak, 2022-11-30. Volume 40C of *Research in the History of Economic Thought and Methodology* features a symposium on the work of economist François Perroux edited by Katia Caldari and Alexandre Mendes Cunha with collected book reviews of David M. Levy and Sandra J. Peart. 2020. *Towards an Economics of Natural Equals*. **After Bourdieu** David L. Swartz, Vera L. Zolberg, 2006-02-28. Critical evaluations of his work notably papers by Rodney Benson, 4 Rogers Brubaker, Nick Crossley and John Myles. Indeed it is the 1985 article by Rogers Brubaker that can truly be said to have served as one of the best introductions to Bourdieu's thought for the American social scientific public. It is for this reason that we include it in the present collection. Intellectual origins, orientations. We begin by providing an overview of Bourdieu's life as a scholar and a public intellectual. The numerous obituaries and memorial tributes that have appeared following Bourdieu's untimely death have revealed something of his life and career but few have stressed the intersection of his social origins, career trajectory and public intellectual life with the changing political and social context of France. This is precisely what David Swartz's In memoriam attempts to accomplish. In it he emphasizes the coincidence of Bourdieu's young and later adulthood with the period of decolonization, the May 1968 French university crisis, the opening up of France to privatization of many domains previously entrusted to the state, the providence and most threatening to post-World War II reforms, the emergence of globalization as the hegemonic structure of the 21st century. An orienting theme throughout Bourdieu's work warns against the partial and fractured views of social reality generated by the fundamental subject-object dichotomy that has plagued social science from its very beginning.

The Maritain Factor Rajesh Heynicks, Jan de Maeyer, 2010. During the 1920s and 1930s many European modernist artists and intellectuals were seeking a primordial finality in Catholicism. In order to distill the eternal from the transitory they became fascinated by a thought frame promoted by the French philosopher Jacques Maritain: neo-Thomism, a revival of the study of the principles and methodology of the thirteenth-century theologian Thomas Aquinas. *Pour une histoire comparée des intellectuels* Hans Manfred Bock, Michel Trebitsch, Marie-Christine Granjon, 1998. Etienne Gilson Florian Michel, 2023-05-26. Etienne Gilson (1884-1978) was a French philosopher and historian of philosophy as well as a scholar of medieval philosophy. In 1946 he attained the distinction of being elected an Immortal member of the Académie française. He was nominated for the Nobel Prize in Literature in 1959 and 1964. This major biography of Gilson was first published in

France in 2018 and now arrives in a long anticipated English translation Florian Michel traces Gilson's life through his time as a professor at the College de France and member of the French Academy Gilson was a prisoner of war in Germany was one of the first to describe the horrors of the famine in Ukraine 1922 created an institute of medieval studies in Toronto published hundreds of articles in the French daily press and took part in the founding conferences of the United Nations He was neither for Sartre nor for Aron and advocated when the NATO agreements were signed the neutrality and non alignment of Europe Gilson did not hesitate to engage in quarrels with the bishops and allows us to understand how one passes from a critical modernism before the First World War to a liberal Thomism and to the Vatican Council II James G Colbert who translated Gilson's *The Metamorphosis of the City of God* offers a careful and measured translation to bring this important work to an English speaking audience

French Sociology Johan Heilbron, 2015-11-06 French Sociology offers a uniquely comprehensive view of the oldest and still one of the most vibrant national traditions in sociology Johan Heilbron covers the development of sociology in France from its

beginnings in the early nineteenth century through the discipline's expansion in the late twentieth century tracing the careers of figures from Auguste Comte to Pierre Bourdieu Presenting fresh interpretations of how renowned thinkers such as mile Durkheim and his collaborators defined the contours and content of the discipline and contributed to intellectual renewals in a wide range of other human sciences Heilbron's sophisticated book is both an innovative sociological study and a major reference work in the history of the social sciences Heilbron recounts the halting process by which sociology evolved from a new and improbable science into a legitimate academic discipline Having entered the academic field at the end of the nineteenth century sociology developed along two separate tracks one in the Faculty of Letters engendering an enduring dependence on philosophy and the humanities the other in research institutes outside of the university in which sociology evolved within and across more specialized research areas Distinguishing different dynamics and various cycles of change Heilbron portrays the ways in which individuals and groups maneuvered within this changing structure seizing opportunities as they arose French Sociology vividly depicts the promises and pitfalls of a discipline that up to this day remains one of the most interdisciplinary endeavors among the human sciences in France *Bourdieu's Theory of Social Fields* Mathieu Hilgers, Eric Mangez, 2014-11-13 Bourdieu's theory of social fields is one of his key contributions to social sciences and humanities However it has never been subjected to genuine critical examination This book fills that gap and offers a clear and wide ranging introduction to the theory It includes a critical discussion of its methodology and relevance in different subject areas in the social sciences and humanities Part I theoretical investigations offers a theoretical account of the theory while also identifying some of its limitations and discussing several strategies to overcome them Part II Education culture and organization presents the theory at work and highlights its advantages and disadvantages The focus in Part III devoted to The State is on the formation and evolution of the State and public policy in different contexts The chapters show the usefulness of field theory in describing explaining and understanding the functioning of the State at different stages in its historical trajectory including its recent redefinition with the advent of the neoliberal age A last chapter outlines a postcolonial use of the theory of fields **The Ethnography of Rhythm** Haun Saussy, 2016-03-01 Winner of the Modern Language Association's Aldo and Jeanne Scaglione Prize for Comparative Literary Studies Who speaks The author as producer the contingency of the text intertextuality the device core ideas of modern literary theory were all pioneered in the shadow of oral literature Authorless loosely dated and variable oral texts have always posed a challenge to critical interpretation When it began to be thought that culturally significant texts starting with Homer and the Bible had emerged from an oral tradition assumptions on how to read these texts were greatly perturbed Through readings that range from ancient Greece Rome and China to the Cold War imaginary The Ethnography of Rhythm situates the study of oral traditions in the contentious space of nineteenth and twentieth century thinking about language mind and culture It also demonstrates the role of technologies in framing this category of poetic creation By making possible a new understanding of Maussian

techniques of the body as belonging to the domain of Derridean arche writing Haun Saussy shows how oral tradition is a means of inscription in its own right rather than an antecedent made obsolete by the written word or other media and data storage devices
