Disabling iPod nano Controls

If you don't want to turn iPod nano on or activate controls accidentally, you can disable them with the Hold switch. The Hold switch disables all ClickWheel controls, and also disables functions that are activated by movement, such as shaking to shuffle and rotating to enter or exit Cover Flow.

To disable iPod nano controls:

- Slide the Hold switch to HOLD (an orange bar appears).

If you disable the controls while using iPod nano, the song, playlist, podcast, or video that's playing continues to play, and if the pedometer is turned on it continues counting steps. To stop or pause, slide the Hold switch to enable the controls again.
