Narrative Essay

### Graduation

Everybody in high school looks forward to graduation day. I was looking forward to graduation myself, but I had a higher goal in mind. I wanted to be in the top 20% of my graduating class. At the beginning I didn't know how I was going to get there, but I knew that no goal was ever too hard for me to accomplish. Failure wasn't an option, so I kept my mind set on the bigger picture. Hard work, dedication, and wise decision making helped me to accomplish my graduation goal.

Hard work just didn't start my senior year, it actually started the first day I walked into my freshman class. My teachers always told me that my freshman year would determine my senior rank. I went above and beyond on all my work that was given. My whole freshman year I received all A's and two B's. These grades weren't just given to me, but I had to work hard to accomplish the goal that I had set myself.

Dedication is sticking to a particular task and not stopping until the job at hand is done. I made a choice that I was going to succeed, and I did just that. I couldn't just do my best for one year and think the job was done; no this was a four year commitment. Don't get me wrong my four years in high school wasn't always a piece of cake, but I couldn't give up when the road got tuff. I dedicated my life to make sure my dreams would turn into reality.

[The Better Writing Breakthrough](#) Eleanor Dougherty, Laura Billings, Terry Roberts, 2016-03-04  
Every teacher knows the challenge of trying to engage reluctant readers and struggling writers students whose typical response to a writing prompt is a few sentence fragments scribbled on a sheet of paper followed by an elaborate shrug of the shoulders. The best way to engage less confident readers and writers is to give them something powerful to think about. *The Discourse and Writing Cycle* explores writing as a means to focus student thinking fuel deeper learning and build complex understanding in English social studies math and science. This field tested approach from well respected experts Eleanor Dougherty Laura Billings and Terry Roberts is designed for use in grades 4-12. **Narrative as Writing and Literacy Pedagogy for Preservice Elementary Teachers** Nancy A. Wasser, 2021-08-16  
I just cannot write or I am not a good writer are familiar complaints from students in academia. Many of them claim they cannot express themselves clearly in written text and their lack of this skill impedes them in their academic career. In this book Nancy A. Wasser argues that teachers can help solve this when they start viewing writing not as secondary to reading but as the equally important side of the same coin. Those who cannot read will not be able to write. Wasser explains how teaching and regular practicing of writing skills from an early age onwards helps children grow into students who are self-aware of their voices. By employing narrative as a process of learning to write and a way to read teachers can teach children the art of writing while also making children more aware of their own constructions of narrative. Combining the focus on individual and group expression in writing lessons students can trace and reflect on their own life transformations through their writing process. Good writers are not born that way but made through effort and practice. Changes in curriculum may not only lead to better expressed citizens but also to more balance between teacher and children voices.
