Emerson Radio and Television Service Manual Emerson Radio and Phonograph Corporation, 1949 Rider's Specialized AM-FM Hi-fi Tuner Manual ,1955 *The Television Code* Deborah L. Jaramillo, 2018-09-26 The broadcasting industry's trade association the National Association of Broadcasters NAB sought to sanitize television content via its self regulatory document the Television Code The Code covered everything from the stories images and sounds of TV programs no profanity illicit sex and drinking negative portrayals of family life and law enforcement officials or irreverence for God and religion to the allowable number of commercial minutes per hour of programming It mandated that broadcasters make time for religious programming and discouraged them from charging for it And it called for tasteful and accurate coverage of news public events and controversial issues Using archival documents from the Federal Communications Commission NBC the NAB and a television reformer Senator William Benton this book explores the run up to the adoption of the 1952 Television Code from the perspectives of the government TV viewers local broadcasters national networks and the industry's trade association Deborah L Jaramillo analyzes the competing motives and agendas of each of these groups as she builds a convincing case that the NAB actually developed the Television Code to protect commercial television from reformers who wanted more educational programming as well as from advocates of subscription television an alternative distribution model to the commercial system By agreeing to self censor content that viewers local stations and politicians found objectionable Jaramillo concludes the NAB helped to ensure that commercial broadcast television would remain the dominant model for decades to come Billboard ,1964-08-01 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends
