is called Business Analysis but it covers the whole field of business and corporate strategy including the choice and
implementation of courses of action For accountants the overall purpose of studying this subject is to be able to make proper
contributions to the strategic management of whatever organisations they find themselves working in To do this requires the
acquisition and considered use of theory lying well outside the mainstream of financial and accountancy topics In addition to
the core material relating to business strategy there are strong links to the fields of economics marketing and human
behaviour Many candidates find business strategy questions particularly difficult since there is rarely a single correct
solution to work towards nor any kind of format or template that will guide the development of the answer The most valuable
aspect of the P3 Practice and Revision Kit is the guidance given on how to tackle the wide range of questions it provides This
guidance appears in a range of forms The Kit emphasises the importance of making sensible comment and practical
