

A man in a black tuxedo with a white shirt and black tie is embracing a woman from behind. The woman has long, wavy brown hair and is wearing a gold, low-cut, backless dress with a thin gold strap over her shoulder. She is also wearing a gold bracelet on her right wrist. The background is a dark, textured green.

Wess Daniels, Rhiannon Grant, 2022-11-04 The Quaker World is an outstanding comprehensive and lively introduction to this complex Christian denomination Exploring the global reach of the Quaker community, the book begins with a discussion of the living community as it is now in all its diversity and complexity The book covers well-known areas of Quaker development such as the formation of Liberal Quakerism in North America alongside topics which have received much less scholarly attention in the past such as the history of Quakers in Bolivia and the spread of Quakerism in Western Kenya It includes over sixty chapters by a distinguished international and interdisciplinary team of contributors and is organised into three clear parts: Global Quakerism, Spirituality, Embodiment Within these sections, key themes are examined including global Quaker activity, significant Quaker movements

biographies of key religious figures important organisations pacifism politics the abolition of slavery education industry human rights racism refugees gender disability sexuality and environmentalism The Quaker World provides an authoritative and accessible source of information on all topics important to Quaker Studies As such it is essential reading for students studying world religions Christianity and comparative religion and it will also be of interest to those in related fields such as sociology political science anthropology and ethics

**Folk Music: The Basics** Ronald Cohen, 2012-12-06 Folk Music The Basics gives a brief introduction to British and American folk music Drawing upon the most recent and relevant scholarship it will focus on comparing and contrasting the historical nature of the three aspects of understanding folk music traditional local performers professional collectors and the advent of professional performers in the twentieth century during the so called folk revival The two sides of the folk tradition will be examined both as popular and commercial expressions Folk Music The Basics serves as an excellent introduction to the players the music and the styles that make folk music an enduring and well loved musical style Throughout sidebars offer studies of key folk performers record labels and related issues to place the general discussion in context

**State Yellow Book** ,1990 **Underwriters' Hand-book of Michigan** ,1927 *The Fourth Dimension and Non-Euclidean Geometry in Modern Art, revised edition* Linda Dalrymple Henderson, 2018-05-18 The long awaited new edition of a groundbreaking work on the impact of alternative concepts of space on modern art In this groundbreaking study first published in 1983 and unavailable for over a decade Linda Dalrymple Henderson demonstrates that two concepts of space beyond immediate perception the curved spaces of non Euclidean geometry and most important a higher fourth dimension of space were central to the development of modern art The possibility of a spatial fourth dimension suggested that our world might be merely a shadow or section of a higher dimensional existence That iconoclastic idea encouraged radical innovation by a variety of early twentieth century artists ranging from French Cubists Italian Futurists and Marcel Duchamp to Max Weber Kazimir Malevich and the artists of De Stijl and Surrealism In an extensive new Reintroduction Henderson surveys the impact of interest in higher dimensions of space in art and culture from the 1950s to 2000 Although largely eclipsed by relativity theory beginning in the 1920s the spatial fourth dimension experienced a resurgence during the later 1950s and 1960s In a remarkable turn of events it has returned as an important theme in contemporary culture in the wake of the emergence in the 1980s of both string theory in physics with its ten or eleven dimensional universes and computer graphics Henderson demonstrates the importance of this new conception of space for figures ranging from Buckminster Fuller Robert Smithson and the Park Place Gallery group in the 1960s to Tony Robbin and digital architect Marcos Novak
