The Four Fundamental Concepts of Psycho-Analysis Jacques Lacan, 2018-05-08 The author's writings and especially the seminars for which he has become famous have provoked intense controversies in French analytic circles requiring as they do a radical reappraisal of the legacy bequeathed by Freud This volume is based on a year's seminar which is of particular importance because he was addressing a larger less specialist audience than ever before amongst whom he could not assume familiarity with his work For his listeners then and for his readers now he wanted to introduce a certain coherence into the major concepts on which psychoanalysis is based namely the unconscious repetition the transference and the drive In re-defining these four concepts he explores the question that as he puts it moves from Is psychoanalysis a science to What is a science that includes psychoanalysis

Landscapes of Holocaust

Postmemory Brett Ashley Kaplan, 2011-01-13 How do the spaces of the past stay with us through representations whether literary or photographic How has the Holocaust registered in our increasingly globally connected consciousness What does it mean that this European event is often used as an interpretive or representational touchstone for genocides and traumas globally In this interdisciplinary study Kaplan asks and attempts to answer these questions by looking at historically and geographically diverse spaces photographs and texts concerned with the physical and or mental landscape of the Holocaust and its transformations from the postwar period to the early twenty first century Examining the intersections of landscape postmemory and trauma Kaplan's text offers a significant contribution to our understanding of the spatial visual and literary reach of the Holocaust

The Sublime Object of Ideology Slavoj Žižek, 1989 In this provocative and original work Slavoj Žižek takes a look at the question of human agency in a postmodern world From the sinking of the Titanic to Hitchcock's Rear Window from the operas of Wagner to science fiction from Alien to the Jewish Joke the author's acute analyses explore the ideological fantasies of wholeness and exclusion which make up human society Žižek takes issue with analysts of the postmodern condition from Habermas to Sloterdijk showing that the idea of a post ideological world ignores the fact that even if we do not take things seriously we are still doing them Rejecting postmodernism's unified world of surfaces he traces a line of thought from Hegel to Althusser and Lacan in which the human subject is split divided by a deep antagonism which determines social reality and through which ideology operates Linking key psychoanalytical and philosophical concepts to social phenomena such as totalitarianism and racism the book explores the political significance of these fantasies of control In so doing The Sublime Object of Ideology represents a powerful contribution to a psychoanalytical theory of ideology as well as offering persuasive interpretations of a number of contemporary cultural formations

American dream It is also revealed as a glorious televisual melodrama full of Gothic tropes and contemporary sensationalism and at the same time a deeply misanthropic satire on the American dream with a sometimes highly problematic portrayal of women and minorities The book also features an interview with frequent Nip Tuck director Elodie Keene and an episode guide
