Greene, Michael Q. McShane, 2018-01-17 For many reasons failure in education reform is rarely admitted Even though it is incredibly hard work to try and improve the enormous and diverse American education system because there are political consequences of admitting that a particular effort did not live up to its promises and pressure from philanthropic funders to show success unsuccessful efforts are often swept under the rug or papered over with public relations efforts that avoid wrestling with the tough realities of educational improvement This doesn t help anyone As any educator will tell you failure is an essential part of learning Insofar as education reform needs to be a learning movement itself it has to be able to admit where it has failed and learn from it *Failure Up Close* engages a select group of scholars from across the ideological spectrum to examine particular education reform efforts of recent years that have not succeeded and offer lessons for school and system improvement that can be learned from them Rather than view failure as negative this volume looks at failure as an

opportunity to learn and grow In fact the editors endeavored to find authors that would analyze reforms for which they had some fundamental sympathy The goal is not to bash particular efforts or castigate their supporters but rather to help those supporters understand how to do what they do better and ultimately do better for children

American Oligarchy Ron Formisano, 2017-09-27 A permanent political class has emerged on a scale unprecedented in our nation's history Its self-dealing nepotism and corruption contribute to rising inequality Its reach extends from the governing elite throughout nongovernmental institutions Aside from constituting an oligarchy of prestige and power it enables the creation of an aristocracy of massive inherited wealth that is accumulating immense political power In a muckraking tour de force reminiscent of Lincoln Steffens Upton Sinclair and C Wright Mills American Oligarchy demonstrates the way the corrupt culture of the permanent political class extends down to the state and local level Ron Formisano breaks down the ways this class creates economic inequality and how its own endemic corruption infects our entire society Formisano delves into the work of not just politicians but lobbyists consultants appointed bureaucrats pollsters celebrity journalists behind the scenes billionaires and others Their shameless pursuit of wealth and self aggrandizement often at taxpayer expense rewards channeling the flow of income and wealth to elites That inequality in turn has choked off social mobility and made a joke of meritocracy As Formisano shows these forces respond to the oligarchy's power and compete to bask in the presence of the 01 percent They also exacerbate the dangerous instability of an American democracy divided between extreme wealth and extreme poverty
