Josephine M. Guy,2017-10-23 The late nineteenth century fin de si cle has proved an enduringly fascinating moment in literary and cultural history It is associated with the emergence of intriguing figures such as the new woman and uranian with contradictory impulses of decadence and decay on the one hand and of experiment and renewal on the other as well as with unprecedented intercultural exchange especially between Britain and France The 22 newly commissioned essays collected here re examine some of the key concepts taken to define the fin de si cle while also introducing hitherto overlooked cultural phenomena into the frame such as the importance of humanitarianism The impact of recent research in material culture is explored particularly how the history of the book and the history of performance culture is changing our understanding of this period A wide range of cultural activities is discussed from participation in avant garde theatre to interior decoration and from the writing of poetry to political and religious activism Together the essays provide new scholarly insights into British fin de si cle and enrich our understanding of this complex period while paying particular attention to the importance of regionalism      **Harvard University Directory** ,1914      St. Nicholas ,1874      Cumulated Index Medicus ,1973

Ashley,2009-01-01 Conduct literature is a term used to identify writings that address how one should conduct oneself in social situations In the medieval period conduct literature was essential reading for nearly all literate children and adolescents to educate them in the expected social behaviours for their culture gender and status Using a comparative approach this anthology pairs together pieces of male directed and female directed medieval conduct literature many being translated into English for the first time to present an illuminating picture of medieval gender norms parenting literary style and pedagogy Containing texts written in six vernacular languages each section is also accompanied by textual notes an introduction and an English translation A fascinating examination of a diverse range of regions and cultures Medieval Conduct Literature is a remarkable window into medieval life customs behaviour and social expectations Book Jacket

French Visual Culture and the Making of Medieval Theater Laura Weigert,2015-12-30 This book revives what was unique strange and exciting about the variety of performances that took place in the realms of the French kings and Burgundian dukes Laura Weigert brings together a wealth of visual artifacts and practices to explore this tradition of late medieval performance located not in theaters but in churches courts and city streets and squares By stressing the theatricality rather than the realism of fifteenth century visual culture and the spectacular rather than the devotional nature of its effects she offers a new way of thinking about late medieval representation and spectatorship She shows how images that ostensibly document medieval performance instead revise its characteristic features to conform to a playgoing experience that was associated with classical antiquity This retrospective vision of the late medieval performance tradition contributed to its

demise in sixteenth century France and promoted assumptions about medieval theater that continue to inform the contemporary disciplines of art and theater history List of Pensioners on the Roll January 1, 1883, 1883 Thomson Bank Directory, 1992 A New English Dictionary on Historical Principles: part 1.
