Vaccine Floyd Jordan,2023-01-20 Vaccine By Floyd Jordan Vaccine is a fictional story about the coronavirus pandemic plaguing the United States and the world Because of a slow and poor response to this pandemic the United States suffered from coronavirus infections and deaths more than any country in the world The race by every pharmaceutical company in the world to develop a vaccine to stop the infections and deaths was most crucial to the current president of the United States and his chances for reelection in November 2020 The president needed to have an effective vaccine ready for inoculations before the election and this desire resulted in many crucial safety steps being skipped and overlooked The vaccine was

developed and effective but weeks later inoculated Americans would need protection from the vaccine Vaccine is an interesting and relevant story that mirrors the current virus and vaccine environment we live in today It captivates the reader by following the daily experiences of fictional characters from the Miami Fire Department where the deputy fire chief becomes the first person in the country to die from the effects of the vaccine The most fascinating and surprising part The mutating vaccine only kills one ethnic group Fire Protection Administration Illinois.
