1969-1970 Ford Mustang Boss 429 Daniel Burrill, 2017-07-17. Not to be outdone by Chrysler, Ford had to build and field its own race-duty big block to compete with the 426 Hemi in drag and stock car racing. In competition trim, the Boss 429 powered Ford and Mercury stock cars to victory in NASCAR and the Mustang to many wins in drag racing. With this exclusive racing pedigree, the Boss 429 is among the most valuable and rare Mustangs ever built. The project was the brainchild of Bunkie Knudsen, noted stylist Larry Shinoda, and other talented Ford personnel. The semi-hemi Boss 429 was so large it couldn't fit in the small Mustang, so Kar Kraft, a specialty car builder, had to shoehorn the engine into the compact Mustang fastback. Author Dan Burrill gives you the straight story on the Boss 429, its special equipment, 429 engine, 4-speed Toploader transmission, interior appointments, paint codes, and options. Also featured is the exciting story of developing this monumental engine, engineering the components and parts to fit the engine and chassis, and assembling the cars. Each volume in the In Detail Series provides an introduction and

historical overview an explanation of the design and concepts involved in creating the car a look at marketing and promotion an in depth study of all hardware and available options and an examination of where the car is on the market today Also included are paint and option codes VIN and build tag decoders as well as production numbers p p1 margin 0 0px 0 0px 0 0px 0 0px font 12 0px Arial **Original Mustang : 1964 1/2-1966** Colin Date, The first generation Mustangs are the most coveted and collectible of all Mustangs Original Mustang 1964 1 2 1966 will help you restore your Mustang to 100 percent originality with the aid of exceptionally crisp colour photographs that guide you step by step through the entire process Serial and engine numbers paint codes trim options and technical tips presented are invaluable aids for do it yourself restorers Colin Date s expert techniques help you avoid the pitfalls that often ruin an otherwise successful restoration project
