Ford Motor Company ,2010 **Job Hunting - The Right Way!** Richard Smith,2004-12 This book is devoted to a task which few of us undertake with relish yet must do at least once in our lifetimes finding the right career position Like it or not we are all compelled by one force or another to work earn wages and be productive Some persons are fortunate in that they do not have to rely entirely on their vocation for financial support Others are not compensated well enough to live without some sort of governmental or charitable assistance even though they work at a full time job For the sake of simplicity the focus of this book will be on the majority of Americans who fall into neither of the categories listed above but rather the middle class and middle income wage earner Make no mistake there is no foolproof method which one can employ in the effort of locating an appropriate job And there is indeed a wide range of books available on the subject some factual and cold others fanciful and taking a Zen like approach to the matter at hand Yet there has seldom been a common sense guide to the art of job hunting if it can indeed be called that it could more appropriately be called a craft since it is a talent which must be developed and cultivated and not an inherent gift Hopefully this book will change that sad circumstance
