Nair,Marwan N. Sabbagh,2014-03-06 Aging affects neurological function leading to neurological disease As society grows older so do the neurological problems associated with aging These can be new neurological deficits due to the aging process itself or the effect of aging on already existing neurological conditions Neurologists will spend increasing amounts of time managing patients with age related neurological complications Geriatric Neurology brings together the wisdom of world leading experts They have crafted a new textbook to define this emerging subspecialty from basic science through clinical assessment and medical management to social aspects of patient care Geriatric Neurology covers The aging brain in neurology Assessment of the geriatric neurology patient Neurological conditions in the elderly Therapeutics for the geriatric neurology patient Management issues beyond therapeutics Comprehensive in scope but with practical focus for effective patient care Geriatric Neurology provides top of class guidance for the management of elderly patients with neurological disorders Psychology and Geriatrics Benjamin A. Bensadon,2015-04-16 Psychology and Geriatrics demonstrates the value of integrating psychological knowledge and insight with medical training and geriatric care Leading physician and geropsychologist contributors come together to share their collective wisdom about topics that are as emotionally uncomfortable as they are universally relevant As the world struggles to respond to unprecedented gains in life expectancy and an explosion of new retirees living with chronic health conditions this collaboration could not be more timely This exceptional resource is itself evidence that physicians and psychologists can work together to optimize truly patient centered

geriatric care Here at last is a scientifically rigorous evidence based response to the aging mind and body from those most expertly trained Illustrates why and how psychologists must assume a more integrated role in meeting the health care needs of older patients Confronts emotionally laden topics such as cognitively impaired driving caregiver burden end of life communication suicide and systemic issues such as bias payment and the culture of medicine Challenges decades long barriers to integration from both physician and psychologist perspectives suggesting how they can finally be overcome Provides an innovative practical response to academic medicine s growing emphasis on psychological and behavioral science Demonstrates how health care reform creates a behavioral health niche that clinical psychologists are uniquely qualified to fill
