A TV Guide to Life Jeff Alexander, 2008-07-01 Read Jeff Alexander's posts on the Penguin Blog A couch potato's book of wisdom 100% commercial free Some say that entire generations of Americans are being raised by the television like that's a bad thing Not so says author Jeff Alexander long time television writer advocate of education by television and recapper for the popular website Television Without Pity Here he offers the ultimate in life lessons as seen on TV Topics include Saved by the Bell School on TV Somebody Save Me Super Powers and Magic Spells Tell Me Why I Love You Like I Do Relationships on TV Making A Living The Workplace And more With a smart snarky style Alexander guides readers through important lessons gleaned from years of TV reviewing now in convenient book form freeing up a whole new generation to learn other things like how to cure cancer or solve world hunger or anything more useful than watching TV Author's note Just joking there is no such thing

TV Guide, 2007

Bewitched Again Julie D. O'Reilly, 2013-07-25 Starting in 1996 U S television saw an influx of superhuman female characters who could materialize objects like Sabrina the Teenage Witch defeat evil like Buffy the Vampire Slayer and have premonitions like Charmed's Phoebe The extraordinary abilities of these women showed resistance to traditional gender roles although these characters experienced infringements on their abilities in ways superpowered men did not Supernaturally powerful women and girls have remained on television including the heavenly connected Grace of Saving Grace telepathic Sookie of True Blood and magical Cassie of The Secret Circle These more recent characters also face numerous constraints on their powers As a result superpowers become a narrative technique to diminish these characters a technique that began with television's first superpowered woman Samantha of Bewitched They all illustrate a paradox of women's power are these characters ever truly powerful much less superpowerful if they cannot use their abilities fully The superwoman has endured as a metaphor for women trying to have it all therefore the travails of these television examples parallel those of their off screen counterparts

Combining his 20 years as a working screenwriter and UCLA professor, Neil Landau expertly guides you through 21 essential insights to the creation of a successful show and takes you behind the scenes with exclusive and enlightening interviews with showrunners from some of TV's most lauded series including *Breaking Bad*, *Homeland*, *Scandal*, *Modern Family*, *The Walking Dead*, *Once Upon a Time*, *Lost*, *House*, *M.D.*, *Friday Night Lights*, *The Good Wife*. From conception to final rewrite, *The TV Showrunner's Roadmap* is an invaluable resource for anyone seeking to create a series that won't run out of steam after the first few episodes. This groundbreaking guide features a companion website with additional interviews and bonus materials: www.focalpress.com/cw/landau. So grab your laptop, dig out that stalled spec script, and buckle up. Welcome to the fast lane.

Wired TV Denise Mann, 2014-02-11 This collection looks at the post-network television industry's heady experiments with new forms of interactive storytelling or wired TV that took place from 2005 to 2010 as the networks responded to the introduction of broadband into the majority of homes and the proliferation of popular participatory Web 2.0 companies like Facebook, YouTube, and Twitter. Contributors address a wide range of issues from the networks' sporadic efforts to engage fans using transmedia storytelling to the production inefficiencies that continue to dog network television to the impact of multimedia convergence and multinational corporate conglomeration on entrepreneurial creativity. With essays from such top scholars as Henry Jenkins, John T. Caldwell, and Jonathan Gray, and from new and exciting voices emerging in this field, *Wired TV* elucidates the myriad new digital threats and the equal number of digital opportunities that have become part and parcel of today's post-network era. Readers will quickly recognize the familiar television franchises on which the contributors focus, including *Lost*, *The Office*, *Entourage*, *Battlestar Galactica*, *The L Word*, and *Heroes*, in order to reveal their impact on an industry in transition. While it is not easy for vast bureaucracies to change course, executives from key network divisions engaged in an unprecedented period of innovation and collaboration with four important groups: members of the Hollywood creative community who wanted to expand television's storytelling worlds and marketing capabilities by incorporating social media; members of the Silicon Valley tech community who were keen to rethink television distribution for the digital era; members of the Madison Avenue advertising community who were eager to rethink ad-supported content; and fans who were enthusiastic and willing to use social media story extensions to proselytize on behalf of a favorite network series. In the aftermath of the lengthy Writers Guild of America strike of 2007-2008, the networks clamped down on such collaborations and began to reclaim control over their operations, locking themselves back into an aging system of interconnected bureaucracies, entrenched hierarchies, and traditional partners from the past. What's next for the future of the television industry? Stay tuned or at least online.
