Deleuze and the Passions Ceciel Meiborg (Ed.), Sjoerd van Tuinen, 2016

In recent years the humanities social sciences and neuroscience have witnessed an affective turn especially in discourses around post Fordist labor economic and ecological crises populism and identity politics mental health and political struggle This new awareness would be unthinkable without the pioneering work of Gilles Deleuze who replaced judgment with affect as the very material movement of thought every concept is an affective experience a becoming Besides entirely active affects the highest practice of thought there is no thought without passive affects or passions Instead of a calm and rational philosophy of passions Deleuzian thought is therefore inseparable from isolated and passionate cries that deny what everybody knows and what nobody can deny every true thought is an aggression This inseparability of reason and passion is by no means an anti intellectualist or irrationalist stance Rather it is critical since it protects reason from its self imposed stupidity b tise by relating it to the unthought forces that condition it And it is clinical because thought becomes possessed by a power of selection The purely active i e free floating unrecorded desire is never enough to produce a consistent relation to the future which is why we need the passions to give us an initial orientation to force and enable us to think Passions are the beliefs perceptions representations and opinions that attach us to the world they make up the very material of which our lives and thoughts are composed Instead of truth as the ultimate criterion of judgment the only principle according to which affective becomings can be selected and evaluated is the extent to which they proliferate joy Spinoza and Marx show how the recruitment of desire traditionally takes place through the tyrants and priests who inspire sad passions in us Similarly the work of Deleuze and Guattari on capitalism and schizophrenia can be read as an encyclopedia of the passions that constitute the affective infrastructure of the socius of contemporary capitalism If it takes a lot of inventiveness or imagination to be able to diagnose our present becomings this is because becomings are always composites of joyful and sad passions Capitalism could not exist if it did not also inspire happiness love courage and perhaps even beatitude That is why today we witness the spectacle of the happily dominated Fr d ric Lordon of the self entrepreneur the managerial class the flex worker the citizen consumer the bean roasting hipster and the self managed team It is within this field of contradictory and heterogeneous passions that the authors of this volume pursue the diagnosis of our past and present becomings Their contributions add up to a systematic taxonomy of the passions and indicate their importance for a thinking that reaches beyond itself

**Deleuze and Guattari: Deleuze and Guattari** Gary Genosko, 2001 **Deleuze and Guattari** Philip Goodchild, 1996-09-27 This accessible book examines critically the writings of Deleuze and Guattari clarifying the ideas of these two notoriously difficult thinkers without over simplifying them Divided into three sections Knowledge Power and Liberation of Desire the book provides a systematic account of the intellectual context as well as an exhaustive analysis of the key themes informing Deleuze and Guattari's work It provides the framework for reading the important and influential study Capitalism and Schizophrenia and with the needs of students in mind explains the key concepts in Deleuze and Guattari's discussion of philosophy art and politics Definitive and incisive the book will be invaluable in situating the philosophy of these two major figures within the perspective of the social and human sciences

**Gilles Deleuze: Image and Text** Eugene W. Holland, Daniel W. Smith, Charles J. Stivale, 2009-06-04 Gilles Deleuze Image and Text focuses on the intersection between Deleuzian philosophy and the arts Deleuze combined exceptionally rigorous insight into important Western philosophers with an extraordinary sensitivity to literature music painting and film He was intensely interested in the medium of thought which is by no means limited to philosophy alone it also takes place in science mathematics literature painting and cinema to name just some of the genres of thought to which Deleuze most often refers His own thinking emerged almost as often in conversation with artists and literary writers as in engagement with other philosophers and his philosophy cannot be fully grasped without an understanding of his engagement with the arts This significant and timely collection of essays from an international team of leading Deleuze scholars brings together interpretations and commentaries from Deleuzian perspectives on subjects such as literature painting music and film The book represents diverse modes of engagement with Deleuze's philosophical concepts and problems and demonstrates the central role the arts play in any understanding of his philosophical ideas

**Deleuze and Guattari's Philosophy of Freedom** Dorothea Olkowski, Eftichis Pirovolakis, 2019-01-31 This volume addresses the issue of freedom in the philosophy of Deleuze and Guattari This is all the more challenging in that Deleuze Guattari almost never use the term freedom preferring instead the concept of the refrain The essays collected in the volume show that freedom has been understood in a remarkably narrow sense and that in fact freedom operates as the refrain in every realm of thought and creation The motivating approach in these essays is Deleuze Guattari's emphasis on the irreality of media and capitalistic sign regimes which they perceive to have taken over even the practices of philosophy the arts and science By offering a clear and engaging treatment of the underexplored issue of freedom this volume moves the discussion of Deleuze Guattari's

philosophy forward in ways that will appeal to researchers in Continental philosophy and a wide range of other disciplines

**Gilles Deleuze and the Theater of Philosophy** Constantin V. Boundas, Dorothea Olkowski, 2017-08-07 This collection first published in 1994 contains thirteen critical essays by established scholars from the fields of philosophy literary criticism feminist theory politics and sociology and a new essay by Deleuze himself That the contributors are from a variety of fields indicates the extent to which Deleuze's work can and will impact theory far beyond the discipline of philosophy Deleuze and Guattari: Guattari Gary Genosko, 2001
