*Addressing the Sexual Rights of Older People* Catherine Barrett, Sharron Hinchliff, 2017-11-02 There is growing evidence that the sexual rights of older people are not being met One reason perhaps the main reason relates to the way that old age is viewed In many cultures being old is associated with decline and disease which positions older people as dependent and powerless Furthermore an absence of positive or celebratory discourses around older people's sexuality is particularly striking The book addresses a gap in research and policy Using an adaptation of the Declaration of Sexual Rights from the World Association of Sexual Health it provides readers with an innovative and evidence based framework for achieving the sexual rights of older people Drawing on interdisciplinary research it explores the cultural and social locations of old age and its intersections with sexual orientation gender identity and intersex status Key themes include stigma silencing invisibility prejudice discrimination and a lack of information awareness and understanding *Addressing the Sexual Rights of Older People* Theory Policy and Practice is a text for academics health professionals social professionals service providers and policy makers It is a timely and insightful collection which suggests ways to apply the sexual rights framework raise awareness and engage communities in constructing strategies for reform

[The SAGE Handbook of Qualitative Business and Management Research Methods](#) Catherine Cassell, Ann L Cunliffe, Gina Grandy, 2017-12-14 The SAGE Handbook of Qualitative Business and Management

Research Methods provides a state of the art overview of qualitative research methods in the business and management field. The Handbook celebrates the diversity of the field by drawing from a wide range of traditions and by bringing together a number of leading international researchers engaged in studying a variety of topics through multiple qualitative methods. The chapters address the philosophical underpinnings of particular approaches to research, contemporary illustrations, references and practical guidelines for their use. The two volumes therefore provide a useful resource for Ph D students and early career researchers interested in developing and expanding their knowledge and practice of qualitative research. In covering established and emerging methods, it also provides an invaluable source of information for faculty teaching qualitative research methods. The contents of the Handbook are arranged into two volumes covering seven key themes. Volume One: History and Tradition. Part One: Influential Traditions underpinning qualitative research: positivism, interpretivism, pragmatism, constructionism, critical poststructuralism, hermeneutics, postcolonialism, critical realism, mixed methods, grounded theory, feminist and indigenous approaches. Part Two: Research Designs: ethnography, field research, action research, case studies, process and practice methodologies. Part Three: The Researcher: positionality, reflexivity, ethics, gender and intersectionality, writing from the body and achieving critical distance. Part Four: Challenges: research design, access and departure, choosing participants, research across boundaries, writing for different audiences, ethics in international research, digital ethics and publishing qualitative research. Volume Two: Methods and Challenges. Part One: Contemporary methods: interviews, archival analysis, autoethnography, rhetoric, historical stories and narratives, discourse analysis, group methods, sociomateriality, fiction, metaphors, dramaturgy, diary, shadowing and thematic analysis. Part Two: Visual methods: photographs, drawing, video, web images, semiotics and symbols, collages, documentaries. Part Three: Methodological developments: aesthetics and smell, fuzzy set, comparative analysis, sewing quilts, netnography, ethnomusicality, software, ANTI history, emotion and pattern matching.

*Black Women in Politics* Julia S. Jordan-Zachery, Nikol G. Alexander-Floyd, 2018-09-01. Examines how Diasporic Black women engage in politics. This book explores how Diasporic Black women engage in politics, highlighting three dimensions: citizenship, power and justice, that are foundational to intersectionality theory and politics as developed by Black women and other women of color. By extending beyond particular time periods, locations and singular definitions of politics, *Black Women in Politics* sets itself apart in the field of women's and gender studies in three ways: by focusing on contemporary Black politics not only in the United States but also the African Diaspora; by showcasing politics along a broad trajectory including social movements, formal politics, public policy, media studies and epistemology; and by including a multidisciplinary range of scholars, with a strong concentration of work by political scientists, a group whose work is often excluded or limited in edited collections. The final result expands our repertoire of methodological tools and concepts for discussing and assessing Black women's lives, the conditions under which they live, their labor and the politics they enact to improve their circumstances. *Black Women in Politics* offers a new perspective on Black women as political actors. Jordan Zachery and Alexander Floyd.
