From 1830 if not before the Empire began to permeate the domestic culture of Empire nations in many ways From consumables to the excitement of colonial wars celebrations relating to events in the history of Empire and the construction of Empire Day in the early Edwardian period most citizens were encouraged to think of themselves not only as citizens of a nation but of an Empire Much of the popular culture of the period presented Empire as a force for civilisation but it was often far from the truth and rather Empire was a repressive mechanism designed ultimately to benefit white settlers and the metropolitan economy This four volume collection on Empire and Popular Culture contains a wide array of primary sources complimented by editorial narratives which help the reader to understand the significance of the documents contained

therein It is informed by the recent advocacy of a four nation approach to Empire containing documents which view Empire from the perspective of England Scotland Ireland and Wales and will also contain material produced for Empire audiences as well as indigenous perspectives The sources reveal both the celebratory and the notorious sides of Empire

Geography in British Schools, 1885-2000 Rex Walford, 2019-07-23 This history charts how geography rose to popularity on a tide of imperial enthusiasms in Victorian time and made its way into many elementary schools in the latter half of the 19th century Many geography lessons were not dominated by the rote learning of capes and bays and some of the pioneers of the subject led the way in the use of models visual aids and object lessons in schools The book explores Scott Keltie's report of 1886 as a catalyst for development Despite the founding of the Geographical Association in 1893 the subject needed a series of concerted political campaigns in the early 20th century to establish itself in the secondary sector The growth of the regional approach field work and of sample studies expanded the subject between the world wars before a major conceptual revolution invigorated and challenged teachers of the subject in the post war period

Headline Britons 1921-1925 Peter Pugh, 2017-07-06 *Headline Britons* paints a unique picture of British life in the 20th and 21st centuries by re-examining some of the country's most notable characters Each book covers a five year span telling the stories of a number of people who in that time stood out among their contemporaries As the 1920s progressed and Britain tried to recover from the horrors of war the country enjoyed a short postwar boom seeing the development of household gadgets such as dishwashers sterilisers and cigar lighters but it did not last and soon unemployment grew Peter Pugh shows in this book that despite the swinging twenties being largely a myth the decade was enlivened by mouldbreaking characters such as birth control pioneer Marie Stopes father of the BBC John Reith and Horatio Bottomley perhaps the biggest business fraudster of all time
