

- (a) Gather the equipment, and check packaging integrity and expiry dates
- (b) Open the dressing and other equipment onto the opened dressing pack, while maintaining a sterile field
- (c) Assess the wound to check there is no wound separation and whether it is OK to remove all the sutures
- (d) Hold the forceps in your non-dominant hand and the blade in the dominant hand
- (e) Grasp the knot of a suture and slip the blade under the opposite side, as close to the skin as possible
- (f) Continue to grasp the knot and smoothly pull the suture upwards free of the entry point
- (g) Place the suture in a gallipot or on dressing gauze, depending on your equipment

The Massachusetts register ,1995 *Essential surgical technique* John Cumming,Colin David Johnson,2013-11-11 This book addresses the needs of the newly defined basic surgical trainee Most BSTs now take part in prolonged rotations with relatively brief exposure to a wide range of different specialties This book is designed to go with the trainee through the rotation to provide a practical guide to the procedures that s he may be expected to perform in each specialty The Editors have deliberately avoided including major procedures at which the BST will be an interested observer The emphasis throughout is on a clear practical guide to the minor and intermediate procedures which the trainee will perform Undoubtedly the first attempts at most of these procedures will be well supervised but we hope that

the descriptions in this book will help the trainee to master each procedure rapidly and with confidence. In addition, we have included chapters on general aspects such as medical management, local anaesthetic techniques and basic surgical skills such as knot tying and instrument handling. We have adopted a direct didactic style because basic surgical trainees need clear direction. There are, of course, many other ways of doing most of the procedures described in these pages, and such variations will doubtless stimulate helpful discussions on practical points. Discussion and justification have been kept to a minimum because we have focused on the essential practical steps of the procedures described.

Textbook of Critical Care E-Book Jean-Louis Vincent, Edward Abraham, Patrick Kochanek, Frederick A. Moore, Mitchell P. Fink, 2011-05-12

Textbook of Critical Care by Drs Jean Louis Vincent, Edward Abraham, Frederick A. Moore, Patrick Kochanek and Mitchell P. Fink remains your best source on effective management of critically ill patients.
