Guided Reading 16 :

Teacher's Resource Pack Keith Gaines, Shirley Tully, 2008-05-23 Wellington Square is designed to meet the needs of children aged 7-13 who are having difficulty in learning to read. It provides straightforward progression through all 5 levels of the scheme from wordless picture books to storybooks with full text. **Good Books Matter** Larry Swartz, Debbie Nyman, 2008 Based on extensive research on the features that make children's books appealing and appropriate, this valuable teacher resource offers guidance on selecting books, strategies for specific grade levels, suggestions for extension and tips for assessment. This teacher-friendly book is organized around the major genres: traditional literature, picture books, nonfiction, poetry, and multicultural texts that will inspire young readers. Throughout the book, teachers will find suggestions for using literature to implement shared reading, reading aloud, and response strategies with emergent, developing, and independent readers. This comprehensive book is rooted in the belief that educators must consider and offer a wide range of choice to ensure that students read good books. It argues that the choices children make about what they read should be governed by their interests and desire to learn, not by a grade or reading level. **Wellington Square, Level 4** Wendy Wren, 2000-05 Wellington Square is designed to meet the needs of children aged 7-13 who are having difficulty in learning to read. It provides straightforward progression through all 5 levels of the scheme from wordless picture books to storybooks with full text. **Guiding Readers** Lori Jamison Rog, 2012 Discover a model for guided reading instruction that fits the 18-minute time frame and is purposeful, planned, and focused. This practical book introduces a range of specific reading strategies and processes that lead students to access increasingly sophisticated text. It includes collections of lessons for emergent, early developing, and fluent readers, as well as struggling readers in the upper grades. Detailed and comprehensive, the book champions an integrated system of guiding readers that involves both fiction and nonfiction, as well as the texts that surround students in and out of school. Websites, directions, instructions, schedules, signs, and more. New and experienced teachers will both find a wealth of valuable reproducible techniques, tips, and strategies that will help them put the tools for independent reading into the hands of every student.
