gums is colored by a heated haze given off from the leaves hence the region's name OCo the Blue Mountains Also of the more than 70 national parks throughout New South Wales more than a handful are settled right around Sydney itself OCo the coastal Royal National Park the northern Wollemi National Park and the western Blue Mountains National Park among them With its diverse personalities multicultural flavors and sophisticated yet down to earth airs Sydney offers something for every traveler It's a place where history culture activities and adventure are blended into a well run and engaging metropolis where locals take pride in their heritage and guests are welcomed like friends Massive transport systems provide a choice of city wide links that are clean quick and cheap food runs from simple Australian to worldly gourmet and endless accommodation options spread from ocean to mountains With 224 million acres 80 million plus hectares the large state of New South Wales has a continually changing landscape which delves into some of Australia's best scenes The classic golden sand beaches form a string along the east coast getting more tropical the farther north you travel toward Queens land or becoming more rocky and chilled the farther south you head toward Victoria The mighty Murray River forms the southern border stretching a watery band of blue along the northern edge of Victoria and providing sustenance to some of both states richest farms grazing grounds and wine regions The Darling and Murrumbidgee also feed the dry western plains and offer a string of charming settlements to explore along their edges The Great Dividing Range runs parallel to the continent's edge curving down all the way from the far north tip of Queensland through New South Wales and on down to Melbourne Included within the peaks are the Blue Mountains just outside of Sydney as well as the Snowy Mountains in the far south of the state And the mountains are indeed a dividing factor in the country's atmosphere not only in visual landscape from eastern beaches to western plains and deserts they also form a border between the balmy ocean settings and the scorched western Outback Fertile farmlands and orchards are tucked into the folds of the mountains while the state's famous vineyards spread out through the glistening river valleys
