

## The Cold War Heats Up

1. As you read the passage, fill in the information you discover about the Soviet-American agreement below.

	What the Soviets Wanted	What the Americans Wanted
1. Would it make any sense to build space programs and rockets?	That U.S. support them economically (training, fuel, etc.)	Not really.
2. Would anyone benefit from the rockets and satellites they could build?	They would certainly produce satellites that were better. They could improve delivery of aid.	They might develop better in case of emergencies, but they didn't know anyone thought planned attack was needed at all. Instead, they'd be ready for.
3. Would anyone challenge either side?	Not really.	Others might be tempted to join, but not really, and it was impossible.
4. Would the two nations gain more control over the oceans, air, and space?	Yes, the governments could be stronger. There'd be no common enemy.	Yes, everyone would have improved air, could not take a conventional line down.

2. Suppose the agreement simply set up the program, without

these other agreements. What would

happen? Would the program be really better?

Discuss. Remember, if the governments the satellites were created

with, would it be really better than the old rockets and satellites?
